VOL. 51—No. 179 JACKSONVILLE, ILLINOIS, SUNDAY MORNING, JULY 29, 1917 FOURTEEN PAGES—THREE CENTS

POINTS OUT GRAVITY OF BOARDS' TASK

General Crowder Mails Communication to All Exemption Boards

WILSON ISSUES ORDER

Gen. Crowder Closes with Declaration that the Nation Needs Men Quickly

NO TECHNICAL RULES

WASHINGTON, July 28.—The gravity of the task which faces the members of local draft exemption boards is emphasized in a communication sent broadcast by the war department and made public tonight by Provost Marshal General Crowder.

The boards are told they are not courts to adjust differences between two persons in controversy. "You acting for the government," says the communication, "are to investigate each case in the interests of the nation and never in the intersts of an individual."

Nation Needs Men Quickly

General Crowder closes with the declaration that the nation needs men quickly and the boards will receive little praise and some blame.

President Wilson tonight issued an executive order directing government officials to exercise the greatest care in issuing exemption affidavits to employes in the executive department, emphasizing high national importance of carrying out the spirit of the selective service act and of securing its full effectiveness by holding to military service all drafted men who are not absolutely indispensible to departmental work. He says discharges should be reduced to the minimum number consistent with the maintenance of vital national interests during the emergency of the war.

"It is earnestly hoped, moreover" the order concludes, "that acting in the spirit as the federal departmental officials, all citizens who may be called upon, as employers, under Section 44 of the regulations, to make affidavits for securing the discharge of persons deemed to be indispensible to national industry interests during the emergency will exercise the same conscientious and scrupulous caution to the end that there will appear to be no favored or exempted class among the citizens called by law to the national defense."

Gen. Crowder's Communication

General Crowder's communication mailed to all boards reads as follows:

"You are entering on a difficult task, the gravity of which is beyond anything that can be said in the way of discussion.

"You realize the significance of what you are to do and you know that a responsibility, heavier perhaps than any you have ever faced, is upon you.

"War demands individual sacrifice to the common cause. No people ever approached war with a calmer appreciation of that sacrifice or a firmer resolve to bear it and to present themselves to be classified for service in the place which it shall best serve the common good to call them. This calm determination could not exist were it not for the confidence of the nation in its institutions. In this public confidence is found the very spirit of the selective law. The most sacred rights of our country, home and family are entrusted for adjudication to local citizens and officials maintained by state governors and appointed by the president.

"The most equitable plans that could be devised have been prescribed for guidance and the administration of these rules and the sacrifice that is offered by your neighbors is entrusted to your hands.

Demand Sacrifice from Everyone

"From everyone is demanded a sacrifice. But there is one thought to be always in your mind. The selected man offers his life. There is no greater giving than this; and that thought should guide you always. There may be a few who will urge upon you claims for exemption or discharge that, whatever may be your inclinations of sympathy or affection, you will know ought not to be granted. It will strengthen you to remember that for every exemption or discharge that is made for individual confidence or to escape personal loss or money or property or for favor or affection some other man whose time would not otherwise have come would increase the risk of his life.

"There can be no room for hesitation in such a case. Another fundamental thought is this:

"You are not a court for the adjustment of differences between two persons in controversy. You are agents of the government, engaged in selecting men for the government and there is no controversy. You, acting for the government are to investigate each case in the interests of the nation and never in the interasts of an individual. There is not

PLAN WEATHER BUREAU SERVICE FOR FARMERS

WASHINGTON, July 82.—To enable telephone subscribers in rural communities to have weather forecasts a week in advance the weather bureau has arranged to telegraph its weekly forecasts issued on Saturday for the ewek beginning Sunday to about 250 of the principal rural telephone companies thruout the thirteen principal grain growing states. They are to be distributed over the lines of the companies about noon every Saturday and will tell the coming week's weather and temperature.

RE-ORGANIZE WAR PURCHASING SYSTEM

Create War Industries Board to Supervise Buying

New Board Will Decide Priority of Manufacture and Shipment and Will be Connecting Link Between Government and Industry

Washington, July 28—Re-organization of the government's war purchasing system thru creation of a war industries board to supervise buying and to decide priority of manufacture and shipment was announced tonight by the council of national defense. The new board will be the connecting link between the goverment and industry. It will be charged with the great responsibility for quantity production will determine the question of creating or extending industries demanded by the war and will pass on prices to be paid by the government.

Membership of Board

Its membership is as follows:

Frank Scott of Cleveland, Ohio, chairman.

Bernard M. Baruch of New York of the council's advisory commission.

Hugh Frayne of New York, representing labor.

Robert S. Brookings, a St. Louis merchant.

Robert S. Lovett of Union Pacific System.

Lieut. Col. Palmer E. Pierce representing the army.

Rear-Admiral Frank F. Fletcher, representing the navy.

Taree members of the board and Herbert C. Hoover are designated to constitute a government purchasing commission serving under the board's direction.

There will be no reduction in the number of existing committees of representatives of the various industries, but they no longer will arrange purchases and will serve solely as advisory bodies and thru the board will answer direct to the conucil instead of to the member of the council's advisory commission.

No Change in Council

There will be no change in the organiation of the council itself, whose membership is drawn from thecabinet, or in teh organization of its advisory commission, made up of industrial and scientific representatives.

The change in the organization is expected to still criticism of the old purchasing system on the grounds that manufacturers and producers as members of the committees have passed on purchases from their own plants. Under the new plan the war industries board and its purchasing commission will approve or disapprove of forms of contracts. The industries committees and sub-committees will continue to advise as to quantity production, but will have no voice in the prices to be paid for government supplies.

Army and navy departments will delegate purchasing powers to their representatives on the board who will sign contracts. Under the law civilian members of the board are not permitted to sign contracts for these departments and the new arrangement while it actually gives purchasing powers to the board obviates the necessity for new legislation.

REAR ADMIRAL LUCE DIES

Newport, R. I., July 28.—Rear-Admiral Stephen B. Luce, founder of the naval war college and one of the leading advocates of the establishments of the naval training system died at his home here today aged 90 years. Admiral Luce was retired from active service March 19, 1889.

TAKE REPLY UNDER ADVISEMENT

Beunos Aires, July 28—The German reply to the Argentine note on the question of the torpedoing of Argentine ships, just received was taken under advisement today by the council of ministers. It is understood that Germany has granted indemnity in the case of those already sunk and promises to respect all Argentine vessels not carrying contraband.

GOVERNOR VETOES BILL.

Harrisburg, Pa., July 28.—Governor Brumbaugh announced late today that he had vetoed the bill to suspend provisions of the full crew law during the present war and for one month thereafter.

SINK AMERICAN BARK

London, July 28—After being attacked by gunfire by a German submarine the American Bark Carmela was sunk by bombs in the entrance of the English channel July 27, says an official statement issued by the British admiralty today. The crew was picked up and landed at Plymouth. There were no casualties.

SHERIFF STOPS STREET CARS IN SPRINGFIELD

No Cars will Be Run After 6:30 p. m. Until Strike Ends

Only About One Third Of the Regular Number of Cars are Run During Day—Signs Point to Settlement in Near Future.

Springfield, Ill., July 28.—All street car traffic in Springfield was ordered stopped at 6:30 o'clock tonight by Sheriff J. A. Wheeler as a precaution against further disorders resulting from the strike of street car operatives. In his order to A. D. Mackie, general manager of the car company, the sheriff said that at night strike sympathizers were able to secrete themselves and "inflict injury on persons and property that no force of deputies and policemen can prevent."

To Stop Cars Every Night.

The cars will be taken to the barns every night at 6:30 o'clock until unsettled conditions, incident to the strike, are remedied.

Only about one third of the regular number of cars were being run on the city lines today, company officials admitted, and there were signs pointing to a settlement in the near future.

Mr. Mackie during the day offered to recognize a local organization unaffiliated with the Amalgamated Association of Street and Electric Trainmen but the strikers at a meeting voted unanimously to refuse the offer.

Men Will Start Move.

T. J. Condon, attorney for the union, stated a move would be made by the striking operatives on Monday which might be successful in ending the deadlock.

"It will not however, be any concession on our part," he said.

A representative of the New York office of the Hodenpyl-Hardy corporation, which owns the Springfield company is in this city watching the progress of the strike.

The one hundred business and professional men deputized by Sheriff Wheeler last night were on duty tonight. Special precautions were taken by the police department to prevent trouble in the downtown district where the usual crowd of Saturday night shoppers gathered.

PALZER DIES OF WOUNDS INFLICTED BY FATHER

FERGUS FALLS, Minn., July 28.—Al Palzer, noted prize fighter is dead and his father, Henry Palzer is to face a charge of manslaughter for the slaying of the son who bought from his own earnings the farm on which the elder man lives as a present to his father.

In defending his mother from an attack by Henry Palzer, Al suffered two wounds, which caused his death today in a hospital at Perham, to which the boxer ran after the shooting. Mrs. Palzer was shot but not seriously hurt.

Palzer knocked out Bombardier Wells at New York when the British boxer was feared by better than Al. Later, when suffering from malaria, he was beaten in 17 rounds by Luther McCarty in a match for the heavyweight championship in San Francisco. He was born ni Oshian, Iowa, and lived in recent years at Decorah, Iowa. It is said here that Palzer leaves little property. Of late years his ring engagements have not been productive of much money and his liberality to his family and to needy men of his own profession cut into his earnings.

WEATHER FORECAST FOR COMING WEEK

WASHINGTON, July 28.—Weather predictions for the week beginning Sunday, issued by the weather bureau today follow:

Great Lakes region: Generally fair weather indicated, altho widely scattered thunder showers are probable. High temperatures first half of week, probably followed by lower temperatures after Thursday.

Plain states and upper and middle Mississippi valleys: Generally fair except for widely scattered thunder showers. Warm first part of week, probably seasonable temperature after Wednesday or Thursday.

TO TEACH STUDENTS TRENCH WARFARE

FORT SHERIDAN, Ill., July 28.—Trench warfare, with one battalion defending and another attacking, in which the use of hand grenades and poison gas will be demonstrated, is scheduled for the last two weeks of instruction at the reserve officers' training camp here. In addition artillery batteries will get a taste of night work and all students will receive a final round of instruction in outpost patrol and scout duty.

Attendance reports at the camp today showed a total of 3,880 students under training, 1,994 in the Illinois regiment and 1,886 in the Michigan-Wisconsin regiment. Recommendations have been made for 3,280 commissions, it was said. From those not chosen approximately four hundred have been selected for service in other army departments, which, according to unofficial statements leaves less than 200 men unprovided for.

STORM HITS AUTO; TWO DIE

Storm Lake, Ia., July 28—Mr. and Mrs. James Jones of Alta, Ia., were almost instantly killed here tongiht when an eastbound Illinois Central train hit the automobile in which they were riding near the railway station. Their son Charles and a nephew Russell O'Bancon, the other occupants of the car were seriously injured and will, it is said die.

HOOVER DECLARES U.S. WILL WIN WAR

Gives Superior Resoures and Ability to Organize As Reasons

GERMANY BEHIND U. S.

States U. S. Has Done More Toward Food Conservation Than the Germans

ELIMINATING WASTE

WASHINGTON, July 28—America will win the war, Herbert Hoover declared in a statement tonight because of its superior resources and thru the ability of the American people to organize. The success already evident of the nation's voluntary food conservation effort Mr. Hoover said points to a final victory.

Accomplish More Than Germany

"Germany accomplished less in this direction in twelve months," said Mr. Hoover, "than we have in four. The only need of legislation and authority is to curb those who would profit by this voluntary movement."

More than two million women, Mr. Hoover announced, have enrolled as members of the food administration and pledged themselves to follow its directions as to home food savings. Within sixty days he said many more millions will have become members.

"No one can rightly be gloomy over the outcome of the American people in this war," said Mr. Hoover. "Success in this war is a question of resources and the will and ability of the people to organize themselves to use them rightly and to endure. Many thinking Americans and the whole world have feared democratic America could not organize to meet autocratic Germany. Germany has been confident that it could not be done.

"We entered the war four months ago and it was announced by the president that one of the great problems of the war would be food; that we must prepare to increase and to save our foodstuffs for a year in advance not only for ourselves but for our allies as well.

Waste Being Eliminated

"There has been no consequential national or local legislation, yet the greatest spontaneous volunteer effort ever made in history has not only provided us with a larger stock of food supply as a result of patriotic planting in every quarter but waste is being eliminated out of every crack and cranny of our homes and of our industries and this is being done without compulsion of the law but by spontaneous effort and self denial of the people.

"Our present prospects indicate an increase of production of cereals by 850,000,000 bushels and altho our farmers planted an increased acreage of wheat, the weather has not responded for this product. Literally millions of new gardens have been planted or extended everywhere. We have the largest supply of vegetables ever in our history.

"The wolf is at the door of Europe and with all these surpluses our stock of foodstuffs would still have been too little for the demand upon us during the coming year if our people had not responded to the call for wise use, economy and elimination of waste. The response not only in planting, but also in conservation has been of such a spontaneous, magnificent order as to give to confident optimism in the ability of our people to prepare and to preserve.

Will Supply Deficiency

"Our American canners will this year produce about 1,700,000,000 cans of fruits and vegetables. Our government and the allies will require about 200,000,000 of these cans. Returns indicate that the American women will preserve 200,000,000 jars and cans this year of fruit and vegetables and will thus supply any deficiency called for by the armies.

"We find every state spontaneously creating a definite and active food organization headed by capable devoted men and women sacrificing every interest in this national service. We see these reduplicated by sub-organizations in counties and municipalities. This is the organization of Democracy and this is positive proof that only upon call of national duty our people will rise and rise over night to the real defense of their faith. I have no fear that the superior intelligence of our people and their capacity of self denial, their will to persevere will prove a wall against which the Germans may battle for the next five years if it be necessary.

"Even tho the situation in Europe may be gloomy today, no American who has knowledge of the results already obtained, in every direction need have one atom of fear that democracy will not defend itself in the United States."

FAIL TO AGREE FINALLY ON FOOD CONTROL BILL

Conferees to Meet Today to Try to Settle Differences

Senate Amendment Proposing Food Control Board of Three Members and That Creating Congressional Committee to Supervise War Expenditures Cause Disagreement.

Washington, July 28.—Conferees on the administration food control bill failed tonight to reach a final agreement on the measure and adjourned to meet again tomorrow.

Two Provisions Prevent Agreement

Two provisions prevented an agreement—the senate amendment proposing a food control board of three members instead of an individual administrator and that creating congressional committee to supervise war expenditures. The conferees hoped for an agreement tomorrow but if they fail it is planned to report the partial disagreement to the two houses and ask for further instructions. A deadlock is not considered improbable.

Earlier in the day the conferees reached agreements upon the prohibition, wheat minimum price fixing and other important sections. The prohibition provision as approved provides that thirty days after the bill becomes a law no person shall use any foods, fruits, food materials or feeds in the production of any distilled spirits for beverage purposes with a separate stipulation that the prohibition shall not apply to the fortification of sweet wines. Importation of distilled spirits is prohibited in a new section.

Include Whiskey in Stock

House conferees receded on their opposition to the liquor commandeering amendment which was adopted substantially as written by the senate except to include whiskey in stock as well as in bond. This authorizes and directs the president to commandeer any or all of such distilled liquors for redistillation where it may be necessary for munitions and other military or hospital supplies. The spirits commandeered would be paid for by the government. It was understood that the president is not contemplating using the commandeering authority. The president is given discretion to stop either the manufacture or importation of beer and wines.

Little Opposition to Wheat Price

There was little opposition to the senate's two dollar wheat guaranty amendment but it was changed to apply to next year's crop instead of this year's. The section authorizes the president, when he finds an emergency exists requiring stimulation of wheat production and that it is essential for wheat producers to have the benefits of a guaranty to require the food administration to determine and fix a reasonable guaranteed price to assure the producers a reasonable profit, not less than two dollars at the principal interior primary markets. It also provides for additional customs duties on wheat when necessary to bring the price of the imported article up to the guaranty.

The $10,000,000 appropriation for nitrate stocks in a senate amendment as agreed to authorizes the president to procure necessary stocks of nitrate of soda for increasing agricultural production during 1918 and to dispose of them at cost. The conference had already agreed to senate amendments aimed to stop government advisory agents from having pecuniary interest in war contracts and to authorize the president, if it should become necessary for the national defense council to fix coal and coke prices.

ATTEMPTED PEACE MEET CAUSES RIOT

LONDON, July 28—An attempt by the workers and soldiers council, an organization recently formed on the lines of the Soldiers' and Workmens' council in Russia, to hold a peace meeting at the Brotherhood Church in Kingsland today resulted in a riot in which the interior of the church was virtually wrecked and a number of perosns seriously injured.

A determined crowd, including some wounded soldiers, forced their way into the church and demanded that the meeting be stopped. A general melee followed.

After the church had been cleared of the wounded, a Canadian soldier mounted to the organ gallery and delivered a patriotic speech.

"Rule Brittania" and the national anthem were sung during which the delegates were compelled to stand. A resolution supporting the policy of the government was then adopted amid cheers.

The delegates were stoned when leaving the church.

EFFORTS TO SOLVE MURDER UNAVAILING

MARLIN, Texas July 28—Efforts to solve the mysterious murder of Hal St. Clair found dead on his farm near here late Thursday, as yet are unavailing but it is learned that in addition to having three men under surveillance a negro has been arrested by Sheriff Plott, of Falls county. The identity of the negro or the jail in which he is incarcerated is unknown here.

It is reported that the negro has confessed and implicated two white men but the authorities have declined to make any statement.

TO BRING BELGIAN REFUGEES TO OREGON

Salem, Ore., July 28—Several thousand refugee Belgian families will be borught to Oregon from Holland soon and established on ten acre farms, Governor Withycombo learned today.

WANT SUBSTITUTES TERMED LIBERTY BREAD

WASHINGTON, July 28.—Liberty bread is the term to be encouraged by the food administration as applied to substitutes for wheat flour rather than the phrase "war bread" used in other warring countries.

"The name 'war bread' gives the impression that there is something inferior about the breads made of substitutes for wheat," says the announcement.

"The fact is that bread made from wheat substitutes are healthful and just as tasty as those made from wheat."

GERMAN AIRPLANES MAKE RAID ON PARIS

Teuton Machines Drp Two Bombs On French Capital

Opinion in Paris is That Raid was Made With Object of Testing Possibility of a Successful German Attack in Force.

BULLETIN.

PARIS, July 29.—Soon after midnight this morning (Sunday) firemen thronged the streets sounding an alarm on sirens and bugles indicating another air raid. French airplanes had been humming in the air since sundown and many more quickly appeared flashlighting signals to one another. As this warning was sounded an hour later than on the previous night there were only a few people in the streets.

About midnight an official note was issued denying the German official communication of today announcing that German aviators had bombarded on the previous night Paris stations and military establishments some projectiles reaching their objects. The note says this statement is incorrect that the attempt of the German aviators on Paris caused no loss of human life and no material damage.

Paris, July 28.—German airplanes made a raid on Paris at 11 o'clock last night. Two bombs were dropped on the capital. The opinion is held here that the raid was made with the object of testing the possibility of a successful German attack in force similar to the recent raid made on London.

A few minutes before 11 o'clock watchers of the French aviation service in Paris heard the noise of a motor and then an explosion followed after a brief interval by another. The prefecture of Paris was accordingly instructed to give the alarm thruout the city. The last notification to the people of the capital to take refuge for a possible raid was given on the night of March 16, 1917.

Soon after the warning of the raiders was given the sky over the city was alive with defense airplanes, twinkling like stars from which they hardly could be distinguished. Firemen dashed thru the streets sounding alarms on powerful sirens and one by one, the street lamps flickered out. Residents of the city, awakened from their sleep, instead of taking refuge in cellars, mounted to the roofs or into the streets to watch the droning airplanes circulating overhead. At 10:30 o'clock the firemen gave the signal that all danger was over and the people returned to their beds having seen nothing of the enemy.

FIND WOMAN'S BODY; ARREST YOUNG MAN

NEW YORK, July 28.—Kenelon Chase Winslow, 23 years old, prominent in church and social circles in Elizabeth, N. J., was arrested here today after the body of a young woman known as Frances Bradley, was found in a hotel room.

The police say Winslow confessed that he beat the woman to death with his fists and a heavy glass ink well after she had tried to steal his watch. He sought merely to stun her according to the alleged confession, in order to escape from the hotel without attracting attention. The woman's hands and feet had been tied and a "gag" bound across her mouth.

ROUND UP DRUG ADDICTS.

Peoria, Ill., July 28.—Following a two weeks round up of drug addicts in which more than twenty dope users have been arrested, federal agents here this afternoon arrested Dr. W. H. Aylesworth, Dr. Thomas M. McIlvaine and C. E. Barnhart on charges of violating the Harrison drug act. All are prominent here. Their bonds were fixed at $5,000.

BOY STILL UNCONSCIOUS.

Quincy, Ill., July 28.—Quincy physicians are watching with interest the case of ten-year old Eldred Takle, who has been unconscious in a hospital here for 156 hours. The boy was hurt in an automobile accident, at Clayton, his home, last Saturday, and has not regained his senses since that time. Physicians attending the case declare that the lad has excellent chances for his life.

WEATHER NDICATIONS AND TEMPERATURES

Illinois:—Fair with continued high temperature Sunday and Monday.

Temperatures

The current, maximum and minimum temperatures as recarded Saturday were:

Jacksonville	84	94	71
Boston	74	80	64
Buffalo	74	76	64
New York	76	80	66
New Orleans	84	90	76
Chicago	90	94	68
Detroit	78	84	66
Omaha	96	102	80
Minneapolis	94	100	72
Helena	88	88	68
San Francisco	60	62	52
Winnipeg	90	92	76

STRIKE HANDICAPS FREIGHT MOVEMENT

Chicago Strikers Refuse to Accept Offices of Federal Mediator

NO VIOLENCE REPORTED

Members of Switchmen's Union Remain At Work with Few Exceptions

COMPLICATES SITUATION

CHICAGO, July 28—Movement of freight to and from Chicago was handicapped today by the strike on ninteen railroads of switchmen affiliated with the Brotherhood of Railroad Trainmen. For a time after the men walked out at six a. m., the possibility of mediation hung in the balance but before noon the present likelihood of federal relief vanished with the refusal of the strike leaders to accept the offices of C. W. W. Hanger, of the federal board of mediation and conciliation.

State Six Thousand Quit.

Contending that they sought only the establishment of reasonable rules regarding employment, promotion and dismissal of switchmen, the strike leaders asserted that close to six thouscand men quit work. The railroad managers' conference committee placed the number who refused to work at less than 2,500 and declared the strike to be insistence by the strikers on rules which in effect amounted to the establishmeut of a closed shop against switchmen not members of the Brotherhood of Railroad Trainmen.

The situation was further complicated by the Switchmen's Union of America also largely employes on the 19 roads in the Chicago switching district. The members ot this union, affiliated with the American Federation of Labor and not with the Brotherhood of Railroad Trainmen, remained at work with few exceptions and their leaders sent for men from other cities.

In the eyes of some of those who watched the progress of the strike it was regarded as a fight between the two switchmen's organization as well as a contest with the railroads.

Predict Normal Conditions Soon

Railroad officials declared late in the day that their switch yards were working with half of the normal force and asserted that such a record the first day of the strike demonstrated that the roads could resume normal conditions in a few days regardless of a settlement of the strike.

Federal officials were advised of the strike and the district attorney said that if conditions warranted, action would be taken. Railroad officials said that government supplies and mail had not been delayed. Embargoes on perishable goods were established by the roads tho late in the day the Chicago Junction railroad announced that its embrago did not apply to livestock hauled over its tracks to the Union Stockyards by other roads. There was no violence reported altho police protection was furnished at all the switching yards and at terminals and the chief of police declared that if necessary he would call out the home guards to relieve the police. Deputy sheriffs were sent to outlying railroad yards at the request of some of the roads.

James Murdock, vice president of the Brotherhood of Railroad Trainmen, cautioned the men to remain away from the switch yards and to conduct themselves in an orderly manner.

F. E. Seberling of Buffalo, N. Y., international president of the Switchmen's Union of North America which is not striking declared late today that estimates of the number who had quit work had been greatly exaggerated. Practically all members of the organization of which he is the head, with the exception of a few men employed by the Chicago, Milwaukee and St. Paul and the Chicago, Burlington and Quincy railroads, have refused to strike he said. He declared his organization did not intend to import men to fill the places of the strikers.

"The door has been shut in my face," said G. W. W. Hanger, of the federal board of mediation and conciliation, referring to the refusal of the strike leaders to accept his offices. He asserted he stood willing to offer any service "if the door is half opened I shall step in" he said.

James Murdock, vice president of the Brotherhood of Railroad Trainmen, insisted tonight that the responsibility for a threatened shortage of ice and food products due to the strike is not upon the strikers.

"The strike has been growing for a year," he said. "The railroads have had ample time to prepare for any emergency."

BURGLARIZED BANKER'S HOME.

Champaign, Ill., July 28.—The home of N. M. Harris, banker, was burglarized last night and $12,000 worth of jewelry and silver were taken.

THRU "SOLID IVORY."

Providence Bulletin.

One Berlin military critic announces that the British fighting on the western front is "serious." If the Germans have just begun to appreciate the fact that the British are fighting seriously it shows what a tremendous task the world has on its hands in trying to make an effective dent in the Teutonic consciousness.

ON COMMON LEVEL

The fact that General Pershing's brother, who is a traveling salesman is now somewhat in the public eye because of that relationship illustrates well the democracy of this country. No doubt the commanding generals in the French, English and German armies all come from the patrician classes but in this country it is different for the leading army men, just like the majority of those prominent in the business world, have grown up in the ranks and are common plain folks just like the great majority of Americans.

DIMMERS BOTH AID AND INJURE

It is time for automobilists to learn the details of the auto dimmer law. Under present condition the driver who uses dimmers and then is compelled to look at the blinding light from a car whose driver does not observe the law, is at a distinct disadvantage. Auto lights have their good purposes but failure to observe the law with reference to dimming the lights is responsible for many a serious accident.

CHAUTAUQUA DIRECTORS KNOW THE TIMES

It is gratifying to know that a great deal of public interest is already being manifest in the coming chautauqua. The management has not only provided a magnificent program in a musical and literary way, but the program also shows due understanding of the times. A Red Cross meeting has been arranged for the night before the opening and the association is standing the expense for the speaker and for other details. A tent has been provided for the Red Cross workers without cost and another tent for the Y. M. C. A., which is just now specializing a great deal on army work. The themes of many of the speakers will be directly related to present day conditions and patriotism will be paramount all thru the chautauqua. Many people who have studied the program agree that it is the best which has yet been offered, and there are many indications that the 1917 chautauqua will go on record as the most successful of the Jacksonville series.

"TOO NUMEROUS TO MENTION."

The Peoria Journal has suggested an organization to be known as the S. to P. O. of L. N. O. to be started at once—the Society to Prevent the Organization of Long Named Organizations. Any newspaper man will approve the potency of the suggestion for each mail now brings to every newspaper office the literature of dozens of societies, organizations, committees, commissions and clubs, mostly claiming to have something to do with reference to the country's participation in the war. An example of these names and organizations is the "National Committee of Patriotic and Defense societies Patriotic Educational society and Conference committee of National Preparedness."

They talk about the needs of consolidating various governmental boards and of centralizing powers that work can be done with less friction and with greater dispatch. Certainly there should be some co-ordination of the management of these well-meaning organizations. For we take it that the organizers are all in good faith and are actuated by patriotism and not by any plan of personal ambition or pecuniary gain. At any rate a vast amount of perfectly good paper is being used in the circular letters and press matter sent out and fabulous sums can be saved in postage thru a clearing house to manage the publicity for all these "too numerous to mention" societies.

WIPING OUT THE CANADIAN BOUNDARY.

Five or six years ago there was a considerable feeling of jealousy toard Canada on the part of some people in the U. S. and that feeling toward this country across the border was thoroly reciprocated. When President Taft favored a law which would bring the two countries into a closer relationship it did not meet the approval of the majority of the people in Canada. They evidently felt some suspicion about the intentions of this country and made a loud noise to indicate that closer relationship with this country and anything akin to separation from England were thoroly distasteful. But since the war has come, and especially since the U. S. has taken a stand as one of the allies, the change has been marked and Canada today feels very kindly towards us.

No better evidence of the changes that these years have brought could be found than the comparatively simple but very unusual incident of having troops of "kilties" from Canada marching thru the Chicago streets and using Garfield park as their rendezvous. There they have been for a week past for the avowed purpose of rousing their own countrymen resident here to the need for enlisting in the common cause.

We used to say that a few years' time brought marvelous political changes in the relationships of men and the same thing is true of nations, for the changes can come just as unexpectedly and just as completely.

AUTOS AND PROSPERITY.

If the number of automobiles purchased can be taken as an indication of prosperity, conditions in this state must be accounted as highly satisfactory. The records in the office of the state secretary show that there are more than 300,000 automobiles in this state and that means 53,000 more than in 1916. When you consider the amount of money invested in automobiles in this state and other states it is really appalling. As has been said of the great war, the development of the internal combustion engine has been the greatest feature, so the same thing might be said of our modern life. It is the internal combustion engine which has in fifteen years' time utterly changed the methods of transportation in this country and has revolutionized many industries dependent upon power.

While millions are invested in automobiles they are by no means all pleasure cars, and for many an individual and many a firm the money spent for a car means actual saving. Great strides have been made in this regard with reference to farm work, and the tractor as a matter of economy and in solving labor problems for the farm is having a remarkable effect upon agricultural conditions.

SEE FAIRNESS IN DRAFT METHODS.

That the Morgan county board of exemption can comment truthfully upon the fine spirit of the men who have called at headquarters to make inquiries about the registration and draft is a fine thing. In every instance the board members have found that those who call to make inquiries seem convinced of the justice and fairness of the draft. There is no evidence of rebellious feeling. They seem to have considered conditions and to have come to the realization that the conscription law was passed because of the necessity facing this country, and it is because of this necessity that these men are willing to perform the services asked. The inquiries made have all been along the line of seeking greater familiarity with the law, the government's needs and intentions.

Thus the feeling that once obtained quite generally about the draft is disappearing. In the days of '61 there was something of an ignominy attached to the draft and frequently it was necessary for officers to search out men and fairly drag them from their homes or places of business to enforce the war service. The reason then was partially due to unfortunate and unfair features of the law. But a study of the 1917 conscription law gives incontrovertible evidence that it applies to all alike, that no privileges have been shown to the rich or the poor, that all the people are placed upon a common level and that the rights and liberties of all have been considered, just as the constitution provides. The average young man, even tho he has no wish to enter the army or navy service, has no objection to serving if he knows when he has been selected that this selection has been made with fairness and impartiality.

OUR COUNTY'S VALUABLE GRAIN CROP.

The last statistics which we have of grain production in Morgan county were those for the year 1909 taken in the United States census of 1910. The value of the wheat, oats and corn produced in 1909, figured on the basis of eighty cents for wheat, thirty cents for oats and fifty cents for corn totalled Three Million Eight Hundred and Sixty Dollars.

An estimate of the value of crops to be produced this year cannot of course be made with accuracy but assuming that there will be as much corn produced as in 1909 and there is this year a much greater acreage of corn than in 1909 and assuming that the wheat production is 65 per cent of that in 1909 and that oat production is 115 per cent of that of 1909 and that corn will bring $1.10, wheat $2.10 and oats 50 cents, the value of these crops for 1917 is:

Corn	$6,484,060.00
Oats	540,000.00
Wheat	1,980,000.00

making a total for these three crops of Eight Million One Hundred and Four Thousand Dollars.

This estimate indicates that the value of these three crops for 1917 will be more than twice the value of the 1909 crop and an increase in the total value of these crops of Four Million Three Hundred Thousand Dollars over 1909.

In this connection it is interesting to note that an increase of one bushel per acre on the corn acreage this year totals $141,000.00 in the county, on wheat totals $830,000.00 and on oats totals $'30,000.00, which shows the great importance of keeping up soil fertility. The figures quoted above are very conservative for many farmers have already sold wheat at $2.25; elevators offer 58 to 60 cents for oats and a $1.25 price for corn is freely predicted.

DEFENDERS OF CONGRESS.

Samuel G. Blythe in the past has written unsparingly of congress and political leaders. He pictures congressmen and senators as they are, not sparing their weaknesses or giving them any more than due credit for works performed. So a statement about congress from Mr. Blythe who is mighty well versed in affairs at the capital, comes now with more than usual importance.

In a recent issue of the Saturday Evening Post Mr. Blythe declares that there is no value in criticising congress at this time. He admits that there are plenty of demagogues—plenty of cheap little men—but says that there are also plenty of those who are versed in the business of the government and who at this time are measuring up nobly to the great duties imposed upon them. This political writer points to the fact that when some demagogue rants for an hour or two he gets a lot of newspaper publicity while nothing is heard of the steady scientific or patriotic work of such men as those who head the house and senate financial committees. "No good can come of bewailing the institution or censuring it," said Mr. Blythe. "From time to time the individuals are subject to review at the polls and that is the way to enforce criticism on congress."

Following in the very line of Mr. Blythe's argument the Quincy Herald in a well written review tells of some of the important work that has been done in this country since the great war began. In a few months' time thru the selective conscription this country has accomplished what it took years for England to bring to pass. Sixteen training schools for officers and three for the training of army doctors are established. The advance guard of our army is in France. Surgeons and engineers have been sent to France and Russia. The navy is helping the French and English in their contest with the U-boats and is patrolling the South Atlantic, thus relieving French and English war vessels for other work. These accomplishments do not all refer to the work of congress but do emphasize the fact that the U. S. has really accomplished a great deal in a short time in endeavoring to bear its proper share of war esponsibility.

Commenting upon the work done The Army and Navy Journal, a publication not dominated by the administration, said recently:

"Our army and navy has worked forward with a smoothness and an absence of scandal that have no parallel in our history of warfare. Our military and naval operations have been conducted solely by army and navy officers with never a 'political general' showing his head above the horizon."

Rippling Rhymes
By WALT MASON

HUNGER AND GLORY

Little Gretchen is complaining, in her humble German home; she has searched the house for victuals, with her mother's fine tooth comb; she has seven little sisters, counting all, from last to first, and they all are wailing loudly for a chunk of wienerwurst. "Hush your racket," says their grandsire, facing them with frowning brow; "what if Hindenburg should hear you, while you kick up such a row? Dunnerwetter! What is hunger, when our kaiser takes the field, with the double-headed eagle newly graven on his shield? Who shall speak of children's tummies when the kron prinz leads his hosts? When he has gewhipped the British, we shall have our stews and roasts; when we see the prinz returning, with his captives at the rear, we shall have our kraut and pretzels, and our steins of foaming bier. Look ahead, ye hollow children, wait, I bid ye, for the day, when the kaiser and the kron prinz bring their captives from the fray!" But the maudlin little maidens into tears absurdly burst; children never care for language when they yearn for liverwurst. Little Gretchen and her sisters weary of the "glory" spiel; they would gladly swap some glory for a satisfying meal.

THIS DATE IN HISTORY

July 29, 1849—Crops in Pike county, Illinois. Wheat crop of the present year is one of the most abundant that has been out for a number of years, notwithstanding the unfavorable appearance in the prospect of the season. Oats and grass crops also prove excellant, while the corn bids fair to exceed all anticipations, particularly when it is remembered that it had to be replanted in almost every case. Good crops and good prices makes the heart of the tiller of the soil rejoice, and so far as both are concerned the farmers of our country certainly have good reason to be gratified.

OVERLAND SERVICE ONLY

The J. F. Claus Overland service station is for Overland service only with Henry Wolke in charge.

MORTUARY

McCoy

James A. Cook of South East street received a letter yesterday telling of the death of his sister, Mrs. Martha Jane McCoy at Archie, Mo. The funeral was held in that city Friday. Deceased was born and reared in Morgan 68 years ago and removed to Missouri about 40 years ago. Her husband and five children survive. She also leaves six brothers and one sister, the latter also lying at the point of death at the home of one of her brothers in Kansas City.

Stop washing your car. Clean and polish with Wondermist, it's easy and makes your car look like new. Brady Bros.

CLUBS AND SOCIETIES

The directors of the Social Service league will meet Tuesday evening at 7:30 o'clock at the public library.

The Woman's Missionary society of First Baptist church will meet with Mrs. Thomas Harber at her home on Webster avenue Thursday afternoon at 2:30 o'clock.

The ladies of Westminster church will meet next Thursday morning and afternoon at the home of Mrs. J. H. Russel on Caldwell street to sew for the Red Cross.

WILL RACE AT LaHARPE

Clark Green will ship Marie Constant, Sim and Vanda Vincen to LaHarpe this week for the races there. The remainder of the string he will send to Peoria where he will work them out preparatory to the meeting to be held in that city.

MATRIMONIAL

Welsh-Roach.

Earl F. Welsh and Miss Kathryn Roach were united in marriage Wednesday morning, July 25, at St. Rose Catholic church, Franklin. The attendants were Miss Hazel Castigan of Quincy, Miss Rose Gramke of Liberty, Messrs. Leonard Welsh of Payson and Andrew Gramke of Liberty. The bride wore a charming gown of white silk with white satin and pearl trimming. Her flowing veil of tulle was caught up with orange blossoms and her shower bouquet was of bride's roses. The bridesmaids wore costumes of white with hats to match and carried shower bouquets.

Following the ceremony an all day reception was held at the home of the groom's sister, Mrs. Floyd Stewart, at 1701 Lind street. About seventy five guests were present at a sumptuous dinner served at noon.

The bride is the daughter of Mr. and Mrs. John W. Roach of Franklin and by her many admirable traits of character has won a large circle of friends in her home community. The groom is the son of John J. Welsh of Payson, Ill., and is known as a young man of industry and ability. The young people will be at home to their friends in a bungalow recently built at 1706 Lind street.

Tribble-Coffman

Jesse Tribble and Miss Elizabeth Coffman were married Saturday evening at 8 o'clock at Northminster church parsonage, the Rev. W. E. Spoonts officiating. Mr. and Mrs. Anderson Kitchin attended the couple. Both the young people have many friends in Jacksonville and both will receive the best wishes of all for a happy married life. The groom is employed by Otis Hoffman. The bride is the daughter of James Coffman, north of Jacksonville. Mr. and Mrs. Tribble will make their home in this city.

Taylor-Vortman.

Claud B. Taylor of Chapin and Miss Jeannie J. Vortman of Neeleyville were united in marriage at 8 o'clock Saturday evening by the Rev. F. B. Madden, pastor of Grace church at his home, 739 West State street, the ring ceremony being used. The couple were accompanied by Walter I. and Marie Vortman. The bride is the daughter of J. H. and Margaret Vortman and is a young woman who has won many friends by her charm of manner and womanly graces. The groom is the son of George P. and Susan Taylor of Chapin. He is a farmer by occupation and commands the respect of all who know him. They will reside on a farm near Chapin.

Standley-O'Neil

Lloyd Standley and Miss Myrtle O'Neil, both of Beardstown, were married there recently at the parsonage of the Catholic church. The bride has been a resident of Beardstown for several years but formerly lived in Virden. Mr. Standley who is an engineer on the Burlington, was reared in the Joy Prairie neighborhood and his relatives are still resident there.

Social Events

Miscellaneous Shower For Miss Henry.

A miscellaneous shower was given recently for Miss Emma Henry at the home of Mrs. James Hitch, the guests numbering sixty of Miss Henry's intimate friends. Each one present brought a recipe for the bride to-be's cook book and during the afternoon the guests were asked to write their "advice" to the bride. These articles were afterward read and were the occasion of much merriment. Miss Henry was the recipient of many useful gifts. In the course of the afternoon delicious refreshments were served by the hostess.

The Friday Social Circle of West North Street met Friday afternoon with Mrs. LaRue. The ladies are meeting every week now and doing their "bit" each time for the Red Cross. Some are knitting, some sewing. All are enthusiastic in the work for the great organziation and what it may do for our boys soon to be at the front.

Sinclair Country Club

A meeting of the Sinclair Country club was held July 25 with Mrs. J. C. Swain. On roll call the members responded with "How to Keep Cool." Miss Nellie Mann presented a paper on "Our Cleanup Day Campaign." Miss Clara Swain gave a paper on "The Anti-Tuberculosis Movement." "The Dark and Bright Side of Housekeeping," was the subject of a paper read by Mrs. Richard Robinson. A program committee was selected for the coming year. It is composed of Mrs. Newton Wilson, chairman, Mrs. Richard Robinson, Miss Irma Fox, Mrs. Chester Wilson, Mrs. Charles Ausmus and Mrs. William Richardson. Guests of the club were Miss Frances Kolp of Jacksonville and Misses Inez and Alma Winter, and Mrs. Dwight Kasirup. During the social hour that followed the hostess served refreshments.

Past P. N. G. Club Surprises Mrs. Belle Brockman.

The Past Noble Grand club tendered surprise party to Mrs. J. Wallace Brockman Friday evening at the home of Dr. and Mrs. G. R. Bradley, on West College avenue. The event was a farewell, as Mrs. Brockman will leave the city soon to join Mr. Brockman, who recently secured a position in Springfield. Mrs. Brockman has long been a faithful worker in Caritas lodge and the club presented her a handsome memory book as a token of appreciation. Mrs. Crabtree making the presentation talk. On behalf of Caritas lodge Mrs. J. W. Chipchase presented Mrs. Brockman with a fine mahogany rocking chair. Refreshments were served in the course of an evening of social pleasure.

CHANGE IN POSITION OF WOMEN IN EAST

Age-Long Seclusion of Sex in Turkey is Being Assailed—Are Permitted to Do Men's Work in Public — New Order Opposed by Conservatives.

Rotterdam, Netherlands, July. — (Correspondence)—Even in the land of the harem the war is bringing women into public employment and the public eye. Hard shocks are being administered to old prejudices in Turkey, woman's age-long seclusion is being assailed, and it will be strange indeed if the facts recorded in the latest letter of the "Nieuwe Rotterdam Courant's Balkan correspondent do not have a lasting effect on the general position of women in the east.

Such announcements as "the Ministry of War requires women for office and warehouse duties, at a commencing salary of 400 piasters (equivalent to normally $19) a month," emanating from the department of Imperial Posts, Telegraphs and Telephones, the Turkish Red Crescent (Turkish Red Cross), the railway companies and the municipality can now be read daily in the papers of the Turkish capital, says the writer quoted. The notices particularly add that the candidate must present a written statement from the head of her family that she has been given permission to accept such such work.

Are Signs of the Times.

They are signs of the times, testifying to the prevailing dislocation of ordinary life, in Turkey. Women are not only permitted but openly invited to come and do men's work, beside and among men, and even in public. Moreover, they are offered immediately a salary of $19 a month, while, in ordinary time, a male beginner had to serve the first few months for nothing.

Since the beginning of the war living at Constantinople has become two or three times as dear as before, and longer hours are worked even in the public departments. Nevertheless, the conservative Old Turk, cannot yet bring himself to grant his women folk the permission required by the government.

The more levies of young and older men are called to the colors, however, the greater the need of substitute labor becomes. Women and girls are more and more in demand for occupations which, according to Turkish ideas, are unsuited for them.

It is still for the greater part Greek, Levantine and many Jewish women, and women subjects of countries allied with Turkey, who have given ear to the calls for women labor. Practically no Moslem women are to be found engaged in office work. It is chiefly in the telephone service, and the offices of the Red Crescent that Moslem women are to be found, and then only a few. Some Moslem nurses have also recently made their appearance in the dressing stations and the war hospitals, but they wear a white cloth so wound round the head, and pinned together under the nose, that only eyes and nose are visible. Armenian women show just as little inclination for public occupations.

School Boys As Conductors

There is still no thought in the east of utilizing women as conductors on train or street car, as coachmen, mail-carriers or the like. The more men are incorporated in the army, the more is recourse had to ever younger labor, with the result that school boys from the middle classes, boys of 14 to 15 years of age, are to be seen acting as train-conductors and even as drivers.

It is pretty generally acknowledged that the women employees give satisfaction, and, indeed, are quieter and less exacting than the men. It is even declared that altogether they waste less time in talking and consulting the mirror than the men require for rolling their cigarettes, drinking their coffee, now no longer obtainable, and the like. These virtues notwithstanding, when normal conditions return it is not anticipated that the women of Turkey and the east will offer very serious competition to men on the labor market. The conception and conviction are too deeply rooted that women's place is at home.

ENGLAND TO INCREASE COTTON IMPORTATION

Is Announcement at Conference to Consider Situation — Stock of American Cotton at Liverpool.

Manchester, England, July — (Correspondence)—Steps are being taken to increase the importation of cotton as far as possible, according to an official announcement by the parliamentary secretary of the Board of Trade, who recently stated in the House of Commons that tonnage for cotton imports would not be lacking.

At the conference to consider the cotton position, held at the Board of Trade late in June, the Manchester Guardian says, reports showed there was a stock of American cotton at Liverpool and in the mills of 700,000 bales, a normal consumption of 62,000 bales weekly, a present consumption of 50,000 bales a week and a present import of 21,000 bales a week.

The question of short time or stoppage of machiner was gone into very thoroly but it will be left in the hands of the newly appointed Board of Control.

One of the most interesting things mentioned at the conference is the subject of the relation of this country to the United States. The Manchester Guardian understands it is planned to communicate with the British Commission in Washington and also with the Egyptian Government with a view to induce the cotton markets to act in some sort of conformity with the Liverpool market. The paper says:

"This is a far reaching proposal and we have no means of judging how it will be viewed in the States, where certainly, anything that pointed to a regulation downward of cotton prices would be very jealously criticized. It seems pretty clear, however, that regulations which tended to keep prices down in Liverpool while New York went its own way would endanger our cotton supplies."

GET IN RIGHT AND SECURE SOME OF HERMAN'S WONDERFUL BARGAINS.

TO SEIZE BRASS AND BRONZE ARTICLES

German War Ministry Declares Measure Will be Carried Out Speedily —Exemption of Copper and Nickel Objects Withdrawn.

Amsterdam, Netherlands, July — (Correspondence)—All pleas of German landlords and sighs of German housewives notwithstanding, the War Ministry in Berlin declares that the requisitioning of brass and bronze door and window handles and fittings, in dwelling houses and other buildings, is inevitable. The measure will be carried out in three to four months' time.

The Association of Berlin Houseowners' Societies had sent a deputation to wait on the chief of the particular section of the War Office concerned, but all in vain. In place of the brightly shining brass and bronze articles in which she takes so much pride, the German housewife will have to content herself as best she can with black "ersatz" (substitute) door and window handles and fittings. At least, the State proposes to supply such uniform substitutes, and even to see to the affixing of same directly after the removal of the original articles. If this be not to the taste of those concerned, they must bear the expense of replacemnt themselves.

Under yet another official decree expected very shortly, all brass and bronze ornaments, grates, fenders, etc., are to be seized for the metal-devouring war, while the provisional exemption of requisitioned copper, brass and nickel objects, particularly domestic articles, has been already withdrawn.

About $150 a month is the salary paid the greatest of Japanese actresses.

PROGRAM FOR THIS WEEK

MONDAY

Butterfly Photoplays

—Presents—

"THE PLOW WOMAN"

—Featuring—

MARY McLAREN and KINGSLEY BENEDICT

In a dramatic picturization of the famous novel by Eleanor Jotts.

TUESDAY

"A YOUNG PATRIOT"

—Featuring—

CHARLES MAILES, MIGNON ANDERSON, ED BROWN and RAY STEWART

A three part military drama.

WEDNESDAY

Blue Bird Photoplays

—Presents—

"THE CAR OF CHANCE"

—Featuring—

FRANKLIN FARNUM and BROWNIE VERNON

In a motor comedy geared to high speed with Dan Cupid steering the car. Don't miss this one.

THURSDAY

"DAREDEVIL DAN"

A drama. Also a comedy—

"NOT TOO THIN TO FIGHT"

With a two part feature.

FRIDAY

Fifteenth Episode

"THE VOICE ON THE WIRE"

—Featuring—

BEN WILSON and NEVA GERBER

THE FINAL EPISODE

—Also—

"FIVE LITTLE WIDOWS"

—Featuring—

EDDIE LYONS and LEE MORAN

SATURDAY

A two part Nestor comedy. A big Harem for all.

"THE WRONG MAN"

—Featuring—

HARRY CAREY and FRITZI RIDGEWAY

A two part western drama. Also a big comedy

"A TWITCHING HOUR"

Featuring GALE HENRY, the funniest woman on earth. See her and laugh with us.

Special Attention is given to children and ladies. Prof. Leeder always has special music for the features. Hear him

A Butterfly Photoplay every Monday.

A Bluebird Photoplay every Wednesday. Admission Monday and Wednesday for these great features, 10c and 5c.

WAR NEWS SUMMARIZED

The Russian front from Volhynia southward to the bend in the line near Fokshani in Roumania presents the curious spectacle of the Russians still in retreat on a wide front in eastern Galicia and of Russian and Roumanian forces victoriously advancing in an important sector along the western Moldavian frontier.

Petrograd says little of the situation in Eastern Galicia but indicates a considerable resistance by the Russian forces to Austro-German pressure in the Carpathians notwithstanding which a Russian retirement was forced under a Teutonic attack.

Berlin annonuces the Austro-German troops nearing the Pruth plateau below Kolomea on the road to Czernowitz, and further gains effected along the line both north and south of the Dniester.

On the Moldavian front the Russians and Roumanians have sent back the defensive line opposite Kezdi Vasarhely, Trasylvania, and further north. Important heights have been occupied by the Roumanians near Beresizi while in the vicinity of Kalskuj mountains the Russians are pushing toward the Putna river and have occupied Boduple, on the left bank of the Putna.

Possible indications of further reorganization of the Russian military machine are seen in the sumoning of two famous generals of the old regime to Petrograd. General Ruzsky, formerly commander-in-chief of the northern armies, and General Gurko former commander of the south vestern front.

The British front in Flanders is again trembling with the shock of a great artillery battle. Drum fire of intense character opened this morning Berlin reports. Several times of late there have been indications that an attack was about to be opened by the British but none of moment has yet developed. Recent reports indicated German artillery also very active on this front, possibly in an attempt to check by counter fire any movement the British might be contemplating.

With aerial and artillery activity on the British front in France increasing daily in volume there are indications of renewed fighting activity there especially in Flanders.

British aviators again have been most active and in addition to their other work have accounted for 31 German airplanes, 15 of which crashed to the ground. The aerial fighting is described by London as having been intense but a markedly successful one for the British.

The defection of large bodies of Russian national congress while the have had its effect in Petrograd. Feeling the need of a stronger and more representative government the political leaders have postponed the Russian ational congress while the cabinet is rebuilt with stronger men.

ILLINOIS COAL MINES FAR BEHIND ORDERS

CHICAGO, July 28.—Illinois coal mines at the present time are 10,000 carloads behind their orders, George H. Cushing, editor of a trade journal dealing with the industry declared today.

His assertion followed an announcement from Washington that statistics for the last two weeks of June and the first week of July indicate that the weekly output of the coal mines thruout the country is fully 2,000,000 tons below full time capacity.

Lack of coal cars is ascribed by Mr. Cushing as the reason for the decrease in output. A joint meeting of the state council of defense and the mine operators of the state was held in Chicago this week but no definite action was taken as to fixing prices. The state council of defense will hold a special meeting next Tuesday at which time it is said on effort may be made to enlist federal aid in solving coal problems in the state.

ARREST TWO FOR FAILURE TO REGISTER

Peoria, Ill., July 28.—Antonio and Gustin Barrows walked 30 miles in today's ninety degree temperature from Farmington to this city to inquire of United States authorities if they should have registered for the selective service army. Both are under 31 years of age and officials dcided they should have registered and accordingly they were jailed.

DROUGHT BURNING UP CROP

Fargo, N. D., July 28.—A record breaking drought thruout North Dakota is burning up whatever chances remained for a fair crop in North Dakota, according to reports to the North Dakota experiment station here.

Prairie fires are raging in some sections according to the reports.

WILL STAMP OUT GAMBLING.

East St. Louis, Ill., July 28.—Frank Keating, applointed chief of police of East St. Louis last night, announced today that he would seek to stamp out comercialized gambling here. He said also he would discharge all patrolmen found giving special favors to persons on their beats.

REVEALS HUSBAND DID NOT REGISTER

St. Louis, July 28—Mrs. Edward J Aure registered for national service here today—woman's registration day in St. Louis—and as she did so she revealed that her husband had not registered under the draft law. Mr Aure was arrested but insisted he was 32 years old. His wife produced a birth certificate which said he was born October 22, 1885, which would make him not quite thirty years old.

JAPANESE DESTROYER SMASHES PERISCOPE.

London, July 28.—Japanese torpedo boat destroyers smashed the periscope of a hostile submarine in the Mediterranean and undoubtedly destroyed the under-sea boat, according to news received here today.

AMERICAN TROOPS LAND IN FRANCE

A EUROPEAN PORT, July 28.—Another American contingent has safely arrived and disembarked.

The American troops arrived by the same steamer whereupon Kermit Roosevelt, his wife and child travelled. When tenders went alongside the vessel Friday, the men were in high spirits and frequently shouted: "Are we downhearted?" which was answered with a roaring "no" given with real enthusiasm.

Representatives of the general staff watched the disembarkation. There was n ocivic demonstration. Only a few specators knew of the landing. These cheered and the troops cheerback. The men entertained quickly and left for their new quarters. A signal company remained at the port for some hours and these were the only represenatives of the contingent which the public saw.

BEERSHEBA OCCUPIED BY TURCO-GERMAN FORCES

Troops Stationed There to Prevent British Invasion of Palestine—War Brings Unprecedented Prosperity to Region.

Copenhagen, July — (Correspondence)—Beersheba, where Abraham dug a well and planted a grove as the Bible narrative records, recently became the headquarters of the Turco-German forces operating to prevent the British invasion of Palestine writes a German war correspondent. In the thousands of years which have elapsed since Abraham's day, Beersheba has experienced no more remarkable change than has taken place with its occupation by the Turkish and German troops.

Beersheba lies southeast of the town of Gaza, one of the goals of the British military expedition in Palestine. Now the tall masts of a wireless station tower high in the air over this oasis on the borders of the Sinai desert and Beersheba has been blessed by the war with material prosperity it never knew before. It has even acquired a "Hotel Abraham," a bazaar of small stores, and a moving picture show operated by the neighboring electric power-station. The performance began at 8 o'clock. The small entrance fee handed over, the movie devotee found himself admitted to a farmyard. Ahead, on a fairly high house facade, hung the linen screen whereon Austrian and German troops were to be seen wreathed in the smoke of cinematograph battles.

Unfortunately, in the last few days, writes the German visitors, the movie paradise of the wilderness has closed its doors. British airmen turned nocturnal enthusiasts and made flights in the moonlight, in the course of which they paid visits to Abraham's ancient country seat. The authorities decided it was unnecessary to provide elctric illumination to indicate where the visitors' bombs might most advantageously be dropped. The electric power station stopped lighting Beersheba's streets, and ceased to provide its current for the movie show. The proprietor of the show had to pack his boxes and rolls of films, and betake himself to pastures new. The date of the reopening is not stated . Possibly on the triumphant entry of the hosts from Egypt.

TO FORM MINISTRY OF COMMERCE

London, July — A commercial Committee of members of the House of Commons has approved a plan for forming a Ministry of Commerce which it is proposed shall absorb from the Board of Trade the commercial department, companies and bankruptcy departments, patents, designs and trade marks departments. It is also suggested a conference be held with the Foreign office to discuss the posibility of the Ministry of Commerce taking control of the Consular service dealing with trade questions and model it on the lines of the United States Bureau for Foreign and Domestic Commerce. Details of the latter have been considerd by the Committee which is anxious to have something of the kind established here.

WOMAN AND CHILD KILLED.

Streator, Ill., July 28.—Mrs. Floyd Piper and her one year old child were killed tonight when an automobile which she was driving overturned on a hill near here. Miss Lillian Roberts a sister, had an arm broken. Both women are daughters of Benjamin Roberts, former mine inspector.

LICENSED TO MARRY

Jesse Tribble, Jacksonville; Elizabeth Coffman, Jacksonville.

Claude B. Taylor, Chapin; Jeannie J. Vortman, Neelyville.

NO NEGOTIATIONS IN PROGRESS

Berlin, July 26—via London, July 28.—It is officially announced that the German government has been informed that no negotiatios are in progress with the United States for the purpose of transferring German war prisoners from England to America.

ADMINISTRATOR'S NOTICE

Estate of Elizabeth Gunn, Deceased.

The undersigned having been appointed Administrator of the estate of Elizabeth Gunn, late of the County of Morgan and State of Illinois, hereby gives notice that he will appear before the County Court of Morgan County, at the Court House in Jacksonville, at the September term, on the first Monday in September next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted

All persons indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 14th day of July A. D. 1917

Charles L. Stevenson, Administrator.
Julian P. Lippincott, Att'y.

POINTS OUT GRAVITY OF BOARD'S TASK

(Continued from Page 1.)

one exemption or discharge in the law or regulations that is put there for the benefit of any individual. All are there for the benefit of the nation and to the end that "the whole nation may be a team in which each man shall play the part for which he is best fitted.'

Should Exclude Pleading

"Therefore no one has a vested right, by himself or by attorney to urge, by argument or pleading, his individual case up on you. You should rigidly exclude this. Ordinarily you should act on the affidavits. If you desire more information you may proceed to get it. If you doubt the affidavits you may interrogate other persons. If you desire more proof you may get it. But no claimant has a right to submit other proof than that called for by regulations or than that you may call for.

"There should be no rules like those of court procedure, no technical rules of evidence. You should proceed to investigate cases about which you are not satisfied exactly as you would as an individual care to inform yourselves about any fact about which you are in doubt.

"Last of all it is important to say a word about your own sacrifice. The place to which you have been called is one which no man would seek save in the performance of one of the highest patriotic duties.

Service Uncompensated

"There is not in any real sense any remuneration. Because thousands of citizens urged that members of local boards should be not placed in a position of performing their grave duties for pay, the regulations provide that ordinarily the service shall be uncompensated. Because it was not desired that any man be prevented from rendering the service by the necessity for earning his daily bread a small remuneration was provided. The nation needs men and needs them quickly. The hours will be long and the work absorbing. The duty is always to take and never give, and human nature is such there will be little praise and some blame. The sacrifice of many of those whose cases are to be decided is no greater than that of the men who are to decide them; and your only reward must be the knowledge, that at great personal sacrifice, you are rendering your country an indispensable service in a matter of the utmost moment."

U-BOAT SINKS LARGE ELEVATOR

Amsterdam, July 28.—A German submarine has sunk a gigantic elevator for the Montevideo, Uruguay, waterworks, which was being towed from Rotterdam to Montevideo by a Duach tug which also was sunk.

GOING TO BUILD?

Let Me Submit An Estimate on Entire Job

I will develop your own ideas into a practical SET OF PLANS AND SPECIFICATIONS (Blue Prints)

Execute them to the smallest detail into a building that can be built within your means and to your entire satisfaction.

A HARD WOOD FLOOR is the foundation of things beautiful.

I will cover those old floors with quartered oak flooring, cheaper than you can carpet them.

No job too large nor too small for my prompt attention.

FINE CROP PROSPECTS ADD TO FARM INTEREST

Great Wheat Yields Reported Mostly From Small Tracts—Show High Acreage Value—Advances in Land Prices Seem Certain—Early Demand for Implements

Reports of good wheat yields in Morgan county are frequent this year but the heavy crops are coming mainly from small tracts where some unusual conditions of fertility prevail. J. R. Baker of the Pisgah neighborhood who lives on the H. Hamil farm, recently threshed the wheat from 22 acres which averaged 38½ bushels per acre. As he sold this wheat at $2.25 per bushel the yield from this comparatively small tract was the tidy sum of $1,905. Other instances have already been recorded of large wheat yields, the record thus far being held by George Newman, also of the Pisgah neighborhood, whose wheat yield from 15 acres averaged $121.50 per acre.

Most of the wheat harvest stories remain to be told, as the crop in most instances has been put in the stack and awaits the threshers. The market advanced further yesterday, mainly due to the reports of damaged corn crop in Kansas. The prospect there on several million acres of corn was said to be 81 per cent average condition, based on a 10 year period, and the damage to this corn was reflected not only in corn but in the other grain markets as well. The high prices for wheat here and the abnormal returns made from a few tracts will be certain to result in a very large acreage being sown in the fall months.

This is usually not regarded as an especially good wheat area and it is very often that wheat is damaged during the winter and the farmers deem it advisable to plow up the land and plant with some other crop. But notwithstanding the dangers that beset the wheat grower it is safe to prophesy an unusually large acreage of wheat for next year. There is considerable expense for seed and at harvest time but in the intervening months wheat needs no cultivation or attention. There is not as much work about it as with corn but the returns are not so good normally as from corn—that is, in this district.

A well known real estate man said yesterday that prices of Morgan county farm lands have shown a considerable advance in the past 90 days and in his opinion they are sure to show further advances in the next three months which will bring the revenues up to the high point of four years ago. This he reasons will be the natural result because farmers who had wheat are reaping big returns, with the prospect for more money from the corn crop than ever before. With all this money to the credit of farmers on their bank accounts they will naturally be looking for investments and while there are some attractions in distant fields they know that the plan of purchasing the lands here at home offers the safest investment and biggest returns, based on a period of years.

After all, that is the only correct basis for figuring farming operations. The farmer who has experience knows that to get at exactly what farming is worth as a business that he must figure on a ten year average, taking the high places and the low places of profit into consideration. One question which is interesting a number of farmers is as to whether or not it would be wise to plant alfalfa this year. A number who had planned for alfalfa planting in August realizing the uncertainty of having alfalfa thru the winter, are thinking of postponing this planting to another year and using the land for wheat and corn, which offer a surer prospect of return. This however, is figuring farming on the one year basis rather than the ten year plan just referred to.

Another matter which is very interesting to farmers just now is the purchase of farm machinery. It is said that more than ever before, farmers are beginning to think about their machinery needs for spring and summer of 1918, because they realize that there will be difficulties of securing farm equipment next year just when they want it and that prices will be higher. So with money plentiful it is almost certain that the farm implement firms will do a considerable amount of business this fall, with farmers who are going to anticipate their needs and have their equipment ready for work when next spring comes.

Henry Stevenson and sons have finished threshing on their farm a few miles west of the city and the average yield was about 40 bushels to the acre. This wheat was sold early in the week to the city elevator.

W. L. Alexander has 105 acres of wheat on his farm near Bluffs and Saturday finished threshing 22 acres. The yield is a little better than 35 bushels to the acre and a part has been sold to the elevator at Bluffs at $2.25 per bushel. Mr. Alexander is confident that parts of the field will easily yield 40 bushels per acre. The men threshing Saturday found that the heat has been so intense and the humidity so great that many of the shocks were so wet at the bottom that it was almost necessary to stop the threshing and thus afford the opportunity for drying out.

Not a great deal is doing now in the livestock industry in the country for the supply of hogs is shorter than usual because of the high prices that have prevailed in the past and the question of profit in feeding such high priced corn to hogs. The same thing aplies to cattle.

John Staff of the Jacksonville packing company was recently on the Kansas City market and purchased three carloads of cattle. One car of these was calves, one car heifers and one car bulls. Two cars will be used by the packing company and the third will be put on pasture a few miles south of the city.

In Wallace's Farmer a correspondent asks about sowing rye in corn. "I would like to sow rye in corn for pasture. How soon would it be safe to do this? Would it be all right to sow a little rape with it? I wish to sow clover in the spring." We suggest sowing the rye after the middle of August. Seeded earlier than this rye is ordinarily somewhat disappointing. There are just two ways of seeding rye in standing corn—broadcasting and drilling. The single-horse wheat drill does very nicely except where the corn rows are a little close together, or the corn is blown down somewhat. If the rye is broadcasted, the practical way to cover it, unless one wishes to take chances on the rain, is to go thru with a single-horse harrow-tooth cultivator. If the expectation is to use the rye for pasture, it would not be a bad idea to use about a bushel of rye and two or three pounds of rape seed per acre. Rape seeded about the middle of August should come on rapidly enough to furnish considerable feed before it is killed by frost in November.

Wondermist; spray it on; wipe dry with cheese cloth, that's all, and your car looks fine. Brady Bros.

DR. BLACK NAMED ON IMPORTANT COMMITTEE

Dr. Carl E. Black has recently been apprised of his appointment as a member of the examining committee for medicine under the new state department of registration and education. The director of this department is Dr. Francis W. Shepardson. Under the former plan the committee of physicians to whom was delegated the work which this committee will now perform was associated with the state board of health. Under the present law the committee of medicine will have the duty of passing upon the qualifications of medical institutions in the state and will also conduct the examinations for applications of licenses to practice medicine within the state. The line of work which the committee will have is to be conducted in a manner Dr. Black approved years ago when as a member of the state medical society he was one of the leaders in the movement to secure this plan of medical supervision. His appointment now to this work is consequently appropriate.

DON'T OVERLOOK THIS CAR

Don't overlook the Overland if you are contemplating buying a car. Investigate and get a demonstration of this great car before making up your mind. Four cylinder fully equipped $750. Six cylinder fully equipped $1,050.

OKLAHOMA LAND EXHIBIT HERE

The Indian land advertising car is at the Burlington station for a few days to advertise the agricultural and mineral productions of southern Oklahoma. Lands belonging to the Choctaw and Chickasaw Indians are soon to be sold by the government and the advantages there are said to be many. They are located in southeastern Oklahoma and comprise 500,000 acres. Oil and minerals are said to underlie many tracts of this territory. R. O. Haller is director of the car and he and his assistants will explain to visitors the terms on which this land is offered.

Mary Pickford, Scott's Theatre Monday and Tuesday, Red Cross benefit under auspices of the Civic League.

WILL DELIVER PATRIOTIC ADDRESS

Rev. Chester Birch who is holding a series of tent meetings in Woodson will deliver a patriotic address Monday evening at 8 o'clock. His subject will be "The Man Behind the Horn." Rev. Birch was for a number of years with the regular army playing in the band and was relieved from duty by Gen. John A. Logan in order that he might take up evangelistic work. The address teems with patriotism, and old soldiers and those who have recently been drafted are especially invited to hear the address. The speaker will intersperse his remarks with selections on the cornet. The Rev. Mr. Birch is creating great interest by his splendid work.

OVERLAND SERVICE ONLY

The J. F. Claus Overland service station is for Overland service only with Henry Wolke in charge.

WILL MAKE EXTENDED VISIT IN THE EAST

Mrs. Effie McMurphy and daughter Percellia will leave today for St. Louis where they will spend the day with Mrs. Fred Francke, formerly Miss Kathleen Sage. On Monday they will leave for New York City and other eastern points for a visit of two months. While in New York City they will be guests of Mr. and Mrs. Joseph Schultz. Mrs. Schultz was formerly Miss Sue Sage of this city.

WINCHESTER

R. L. Roark passed away this (Sunday) morning at 12:30 o'clock in a jacksonville hospital. Mr. Roark had been ill for a considerable time and his death was not unexpected. The funeral and burial will be made in Winchester, but definite announcement will be made later.

Mrs. Alfred Schultz and children of Beardstown arrived Saturday for a week end visit with Mrs. Charles K. Gondit, mother of Mrs. Schultz.

Chester Cowper returned Saturday to his home in Muskogee, Okla., after a visit of two weeks with relatives here.

Mr. and Mrs. Gilbert Wright and daughters were here Saturday from Riggston.

A party of long distance auto tourists passed thru Winchester Saturday. They were on their way from Ohio to Kansas.

Mrs. Effie McKean and Mr. and Mrs. Charles Obermeyer and children of Chicago are visiting Mr. and Mrs. Peter Obermeyer.

Thomas Hardwick, daughter Mrs. Ralph Simpson, with her children, who came from Peoria for a visit with relatives near Merritt arrived Saturday for a visit at the rural home of Mr. and Mrs. Edward Leach.

Mr. and Mrs. Ivan Hawk of Jacksonville are visiting friends here.

Mrs. Elmer German of Bloomington is here for a visit with relatives.

Miss Edith Watt has returned from a week's visit in Springfield. She was a guest at the home of Mr. and Mrs. John Lloyd.

The session of county court Saturday was taken up entirely with consideration of the Bowman case. The arguments of both sides were heard and the case had not been brought to a close by Saturday evening.

The condition of J. R. Peak on Saturday remained critical. Mr. Peak's illness has for the past few days been more serious and members of the family now regard the end as no great distance away.

The social on the lawn of the Baptist church Saturday evening proved a pleasant variation from the dust and heat of the day. Refreshments of excellent quality were served and all who attended felt well repaid.

YOU SHOULD KEEP COOL

These hot days in a hammock. See them at Lane's Book Store.

FILED SUIT FOR DIVORCE

Mrs. Maude C. Graham thru her attorney, John M. Butler, filed a suit for divorce from her husband, George A. Graham. The parties to the suit live at Meredosia and it is the claim of the complainant that her husband has made threats against her and has talked of destroying certain property and for those reasons she asks an injunction of restraint against him. This injunction was granted and the hearing of the case will be at the November term of court. Mr. and Mrs. Graham were married Nov. 8, 1892, and lived together until July 15, 1917. Infidelity is the charge made.

Mary Pickford, Scott's Theatre Monday and Tuesday, Red Cross benefit under auspices of the Civic League.

WORD FROM MR. SCHRAM.

Joseph F. Shreve received word Saturday morning from Mr. and Mrs. Dennis Schram, who have reached their destination after a successful automobile trip and are now at Mt. Clemens, Mich. Mr. and Mrs. Schram are well pleased with their cottage and its surroundings. Mt. Clemens is noted for an excellent supply of health-giving waters and facilities for fishing are also of the best.

VICTOR FARRIS JOINS U. S. MARINE CORPS

Victor Farris, who has been employed in the U. S. Government mail service in Chicago, has joined the marine corps and is in Jacksonville for a brief visit with his parents, Mr. and Mrs. R. J. Faris. He will return to Chicago Thursday and soon afterward will leave for Port Royal, S. C., to begin training.

SCHRAM & BUHRMAN Watch Repairing

IS MAKING FINE SHOWING

Roland L. Stice, salesman for the J. F. Claus Overland company is running second in the salesmanship contest which is being promoted by John N. Willys. The contest covers several of the middle western states and Mr. Stice's friends are predicting that he will land the prize.

JAMES MORRISON LONG IN REGULAR ARMY

James Morrison, now with the 51st regiment of the regular army, is here for a brief visit with relatives. Mr. Morrison has been in the army service for the past thirteen years and enlisted in this city in 1904. Much of that time he has been with the 11th tregiment at western forts nd was in the border service for two years. He is a musician in the regimental band and plays the slide trombone, just as he did during his residence here. The troops are now located at Chickamauga Park and Mr. Morrison said yesterday there are about 11,000 infantrymen and 3,000 cavalrymen in camp there. The men of course know little or nothing about what is in prospect for them but are naturally expecting that it will not be long until they are sent to France for service.

LATE SUMMER MILLINERY RIGHT FROM NEW YORK ON SALE AT HERMAN'S.

THE ANDRE SALE

The 22nd semi-annual sale of the Andre & Andre store which begins tomorrow offers unparalleled buying opportunities. Even the past few weeks since the store proprietors were in the markets goods have advanced 20 per cent in price. The stocks which are offered at this special sale are based upon prices a year ago. It is thus very easy to see that the buying opportunity is real and that here is a chance for money saving on goods of the highest and best grades.

L. A. C. ORCHESTRA

The seven charming ladies and talented musicians of this orchestra were here with Bryan in the "Big Rain". In securing them again the management gives a real opportunity to enjoy much of the world's best music. Each member of the orchestra is a recognized artist. The programs include mixed quartets and vocal and instrumental solos. The enthusiasm of their audiences testify to the delight with which these artists are received and the real pleasure which they take in their work adds the more to the pleasure of others in hearing them.

GERMAN WOMEN FIGHT ON RUSS FRONT

Russian Women's Battalian Captures Number of German Women in Battle—Ten Wounded Russian Women Reach Petrograd.

Petrograd, July 27, Friday—When the Russian women's battalion, known officially as the "Command of Death" went into action against the Germans near Smorgon, July 25, they captured a number of women from whom it was learned for the first time that Gerarin women also were fighting on battle front in western Russia.

Ten wounded heroines of the women's battalion arrived in Petrograd today, leaving their commander, Vera Butchkareff and Marya Skrydloff, a daughter of Admiral Skrydloff former commander of the Baltic fleet and minister of marine, in a hospital at Vitebsk.

Interviewed, the women said it was reported that of the 200 of the command who reached the front only 50 remained. Twenty were killed, eight were taken prisoner and all the rest were wounded.

"Several times," said one wounded girl, "we attacked the Germans. Especially memorable was our attack at Novospassky wood, near Smorgon, where the enemy hearing the voices of girls lost their nerve. The result was that many of them were killed, wounded or taken prisoner. Among the prisoners were a few women, from whom we learned for the first time that German women were also fighting.

"We did not feel the slightest fear for our personal safety. Our passion was to serve the Fatherland. We advanced gaily against the foe with laughter and song. Our only unpleasant sentiments being when we first came to the corpses. Or, when replying to the enemy's severe rifle and machine gun fire, we discovered to our amazement that all our men comrades in the neighboring trenches had treachously fled, leaving us—a handful of women—to face the enemy alone."

This hot weather causes increased demands for Panama and Straw Hats — FRANK BYRNS' Hat Store can furnish you most any style or price.

ANOTHER CANDIDATE FOR COMMISSIONER

William Rook of Woodson precinct has announced his candidacy for the Republican nomination for county commissioner and his petition was filed yesterday in the office of the county clerk. Mr. Rook, who is a substantial farmer of the county, lives on his farm a short distance from Woodson and is highly esteemed in the locality.

TENTATIVELY AGREE TO REVISE WAR TAX BILL

Larger Part of the Increase to Come from Income Taxes

Members of Senate Committee Say is is Possible the Total of the Bill Before it Gets to the Senate Will Be $2,000,000,000

Washington, July 28—The senate finance committee reached a tentative agreement late today to revise the present $1,670,000,000 war tax bill so as to raise at last $1,943,000,000, the larger part of the increase to come from higher income taxes.

May Total Two Billion

Members of the committee said tonight it is possible the total of the bill before it gets to the senate will be $2,000,000. According to the present plan about $230,000,000 of the increase will be obtained thru higher income tax rates—$70,000,000 for the individuals and the rest from corporations. The committee figured on an increase in the normal rate on individuals from two to five percent and on corporations to six per cent. The rest of the increase may be obtained by increasing the excess profits and by consumption taxes on sugar, tea, coffee and cocoa.

Under the program $1,062,700,000 would be the total levy this year upon incomes. The present law yields $300,000,000, the pending bill originally was designed to increase this by $523,700,000 and the $230,000,000 additional it is now proposed to levy would raise it over the billion mark. The senate committee will confine its work for the present to the present war tax bill and will leave to the house the task of raising the rest of the $7,000,000,000 the administration believes it must have to prosecute the war this year. Majority Leader Kitchen of the house was in conference with the senate committee today and this decision was reached as a result of his contention that the house might resent any senatorial infringement on its constitutional prerogative of instituting revenue legislation. Whether the house will prefer to authorize $5,000,000,000 in bonds or treasury certificates to supplement the two billion dollars the senate is providing will not be determined until next week.

Raise Probably Will Stand

"The income tax increases proposed," Chairman Simmons announced tonight, "represents the concensus of the committee's opinion. They probably will stand as the committee was ready to formally vote on the provision late today but deferred final action until Monday."

The decision to leave to the house the task of providing $5,000,000,000 additional, promised greatly to expedite senate action on the pending revenue bill. Senator Simmons said the committee plans to complete its revision Tuesday and report the bill to the senate for beginning of debate the latter part of next week.

TWO KILLED IN RENEWAL OF RIOT

Deputy Sheriff and an Unidentified Negro Shot to Death in Negro Section of Chester, Pa.

Chester, Pa., July 28.—David Schwartz, a deputy sheriff and an unidentified negro were shot and killed here late tonight in a fight in the heart of the negro section. The shooting occurred after a day of quiet following the disorders of the last two nights and was the result of the sending of a number of policemen and guards into the neighborhood after a crowd of negroes had opened fire on two guards.

The two guards retreated after emptying their pistols and then sent a riot call to city hall.

Schwartz drove an automobile load of guards and policemen to the scene. When the motor car arrived a number of negroes started firing and Schwartz fell dead. After the crowd was dispersed the body of a negro was found. According to the police he was a guard in the employ of the proprietor of a negro hotel near the scene of tonight's shooting.

Attend the band concert at Nichols park tonight.

AMERICAN GENERAL VISITS FRENCH FRONT

AMERICAN TRAINING Camp in France, July 28.—By the Associated Press—An American general returned to camp today from a visit to the French fronts. He plans to go again soon and take with him many other officers. Wearing a French shrapnel helmet and with a gas mask slung about his neck he inspected the trenches, including bits of the front line.

The general later climbed into an observation post, where he spent an hour with the shells swishing around him in all directions. The general was much impressed with all he saw especially the details of the organizations behind the lines—features to which the Americans will have to devote an immense amount of attention.

Three German airplanes attempted to cross the French lines during the general's visit but all were turned back by French aircraft and artillery. One of the members of the general's taff, a former aviator was taken up in a French plane for a brief trip over the German lines.

The price of silk has advanced but FRANK BYRNS' Hat Store has not advanced the price of Silk Shirts.

ADMIRAL CAPPS TO DETERMINE POLICY

WASHINGTON, July 28—Determination of a shipbuilding policy will be left by the shipping board largely to Rear-Admiral Capps, general manager of the emergency fleet corporation. The board will specialize on operation of ships, the direction of traffic and question of rates.

Admiral Capps is of the opinion that all ships possible be built and there will be no question of steel or wooden ships.

British representatives on the food and submarine situation which have reached the American government indicate that England is in no danger of actual hunger for another 12 months even at the present rate of German sinkings and if ship construction were not increased.

PLAN PUBLICITY CAMPAIGN

New York, July 28.—Labor leaders at a conference here today presided over by Samuel Gompers adopted plans for a publicity campaign to combat the pro-German element seeking a foothold in organized labor. Committees of workers it was announced will go to every center in the country to "educate the true American laborer in the fallacies of pro-Germanism and the truths of pure Americanism."

Sufficient funds are already available to start the campaign the announcement said.

BEGIN CLEANING UP ROCKFORD

Rockford, Ill., July 28.—A police raid of questionable resorts was made tonight preparatory to the establishing here of the Illinois divisional cantonment for the selective army, numerous offenders being arrested. Local officials have declared their intention of keeping the cantonment free from vice.

THIRTY THOUSAND WOMEN REGISTER

St. Louis, Mo., July 28—Thirty thousand women registered here today for national service and signed the Hoover food pledge. The women were asked to indicate the work in which they had had training and in which they could serve if called on in an emergency.

ON MOTOR TRIP

Mr. and Mrs. Wm. Bieber, son, Lloyd, and daughter, Lillian Frances, Miss Lillian Smith, Mrs. Lynn Cassell and daughter, Dorothy, left Saturday morning in Mr. Bieber's Buick car for a tour thru northern Indiana, northern Illinois and Iowa. The party expect to visit relatives of Mrs. Bieber and to make a visit also at the Ft. Sheridan military training camp.

MICHAELIS TO GO TO VIENNA.

Berlin, July 26—via London, July 28.—The Tageblatt learns that Chancellor Michaelis will leave for Vienna for the purpose of meeting Emperor Charles and making the acquaintance of Viennese governmental circles.

RECEIPTS SHOW INCREASE.

Washington, July 28.—Receipts from the national forests for the fiscal year just ended amounted to $3,450,000, an increase of $600,000 over the previous year, the forest service announced today. Operating costs were stimated at $4,000,000, leaving a burden of only $550,000 on the government for maintenance of the great lumber reserves during the past year.

BLIND WILL HOLD PEORIA CONVENTION

Members of State Society Will Gather Thursday—Interesting Program Planned

Blind persons of Illinois are going to Peoria next Thursday for their fourth annual convention and picnic outing This will be held at South Park with business session and annual election of officers at 1:30 p. m. and the picnic lasting all day. A special program of entertainment features is to begin at 2:30 p. m. at which there will be music, speaking and various literary numbers.

The more progressive blind of the state are organized in what is called the Illinois Social club for the Blind and this is the name under which they will gather in Peoria. There are from thirty to forty members living in Peoria and vicinity and as many more are expected to attend the outing and business session from other portions of the state.

All the entertainment is to be furnished by blind persons and there will be an exhibit of articles of various kinds made by blind of all ages. In the evening there will be a dance.

The afternoon entertainment program, the exhibit and the dance at night are open to friends and relatives of the blind and to any of the general public who feel interested in attending.

NOTICE.

I will not be responsible for any debts contracted by my wife hereafter. H. E. Perry, Jr.

DR. HARDESTY RECEIVES LIEUTENANT'S COMMISSION

Dr. T. O. Hardesty, who volunteered for service as a physician with the U. S. army, has received his commission and will report for duty soon, holding the grade of first lieutenant. Dr. Hardesty has had notice of his acceptance for a number of days but thru some unexplained delay the commission did not arrive until Friday. Dr. Hardesty is not only a physician of prominence but a citizen of integrity and public spirit and in taking this step he is only adding to a reputation for public service already long maintained.

For sale—two horses and two delivery wagons. Big bargain. Apply at once. Brady Bros.

GAME AT ALEXANDER

The Schaefer Seals of Springfield will play the Alexander team this afternoon on the Alexander ball club grounds. The Springfield team has been doing good work this season and a lively game is expected.

Attend the band concert at Nichols park tonight.

BLUFFS

Mrs. Emma Pickup of Peoria is visiting her parents, Mr. and Mrs. Wm. Tippett.

Miss Margaret Toney of Geneva spent last week with Mrs. Henry Oakes and family.

Miss Ida Burrus of Lincoln is visiting relatives in Bluffs and vicinity.

Born, to Mr. and Mrs. Julius Westermeyer Wednesday, a daughter, first child.

Born, to Mr. and Mrs. Louis Schuessler Saturday of last week, a daughter, first child.

Charley Wolford, another Bluffs' boy left Thursday for Springfield where he enlisted in the army.

Harry Oakes was a business visitor in Springfield Saturday.

James Henry of Winchester is the guest of his brother Ed and wife.

Mr. and Mrs. J. P. Gardner expect to leave next week for a visit with relatives and friends in Louisville, Ky.

John Ritter has returned from the state of Maryland where he has been visiting relatives and friends for several weeks.

Mrs. Rosa Brewer of Flint, Mich., spent last week with relatives and friends in Chapin and Bluffs.

J. A. McCreery and son of Mason City have opened up a grain office in town.

Misses Etta and Saloma Middendorf entertained the members of their Sunday school class at a picnic in the grove east of town Saturday afternoon. About twenty were present.

DON'T OVERLOOK THIS CAR

Don't overlook the Overland if you are contemplating buying a car. Investigate and get a demonstration of this great car before making up your mind. Four cylinder fully equipped $750. Six cylinder fully equipped $1,050.

ROBT. FOSTER TRANSFERED TO NEW TRAINING CAMP

Mrs. Minnie Foster and Miss Dorothy Foster have returned from Highland Park, where they spent a number of days, visiting the son of the former, Robert Foster, who has been training for service in the medical corps at Ft. Sheridan. Mr. Foster has now gone to Battle Creek, Mich., and will work at a new camp for officers' training opened there. He will assist with the physical examnation of those entering the scamp.

Fred W. Bray, who since his enlistment has been a companion of Foster, will remain at Ft. Sheridan. Needless to say, the separation of the two young college men after two months of association, came hard to both.

A sample of Royal Ann cherries has reached the Journal office from the G. H. Primrose ranch near Portland, Cal. These cherries are of very fine flavor and fully twice the size of the average cherry grown in Morgan county.

SISTER OF J. B. GAUSE DEAD IN DELAWARE

Mrs. Lydia Plummer, Widow of the Rev. Thomas Plummer, Taken At Age of 84—Was Last Surviving Sister.

J. B. Gause of East Superior avenue has received word of the death of his sister, Mrs. Lydia Gause Plummer, the widow of the Rev. Thomas Plummer and a well known resident of Wilmington, Del. Mrs. Plummer, who had been ill for a considerable time, was the last surviving daughter of Mr. and Mrs. Louis Gause and her passing leaves J. B. Gause of this city the last living member of a family of ten children.

Mrs. Plummer leaves one daughter, Miss Lydia Plummer, at home. Her death occurred Thursday morning and the funeral was held in Wilmington Saturday afternoon.

It was a sister of Louis Gause the elder who married into a well known Pennsylvania family of Taylors. A son attained to great distinction, Bayard Taylor, and Mr. Gause of this city is hence a cousin of that well known author and explorer.

TWO ARRESTED ON BOOTLEGGING CHARGE

Chief Davis and Capt. Roach Got Men in Cox Street—A Speeder Arrested

Two bootleggers were arrested Saturday night at their homes on Cox street by Chief of Police Davis and Capt. Roach. The men are Milton Black and James Majors. The police department has been on the watch for these men for some weeks past but was not able to get the direct evidence wanted until last night.

William Johnson, a colored man, was arrested by Chief Davis Saturday morning for speeding. Chief Davis had to drive his own car at the rate of 35 miles an hour in order to catch up with the offender and even then Johnson had slowed up in order to go back after his hat which had blown off as he rushed along the streets.

ORGANIZE U. S. PUBLIC SERVICE RESERVE

For Purpose of Mobilizing Volunteers for National Service Outside Army and Navy—Thousands of Offers for Service on File

Washington, July 28—The work of organizing the U. S. Public Service Reserve, for the purpose of mobilizing volunteers for national service outside of the army and navy, has proceeded rapidly since the plan was first announced by the Department of Labor two weeks ago.

More than ten thousand offers of service which have been received from all parts of the country by the Council of National Defense have been sent to the officers of the Reserve, it was announced today, where a corps of clerks are busy communicating with each person who has made such an offer, with a view to getting more specific information as to his aptitudes for service and enlisting him in the Reserve. Hereafter such offers received by the Council of National Defense will be forwarded at once to the new organization.

Engineers to Co-operate

In addition the records of several organizations of technical men have been placed in the office of the Reserve, so as to be made more available for its uses. Engineering societies have offered their full co-operation and arrangements are rapidly being completed for effective use of their lists of members. The aid of the Interco'legiate Intelligence Bureau has been extended for meeting calls for men registered with the various colleges.

Pending the development of its membership the Reserve, which is designed as the center to which various branches of the Government may resort in their search for men of special qualifications, will make use of all available sources of information as to where the men needed can be found. It is expected that within the next few weeks it will be the means of bringing a great many men of all degrees of attainment in to the Nation's service.

William E. Hall, of New York, who is expert in many of the problems involved and whose success in developing the U. S. Boys' Working Reserve speaks well for his capacity to fill the position, has been appointed National Director of the Public Service Reserve by Secretary of Labor Wilson.

Men of Technical Ability

I W. Litchfield, who, as manager of the Massachusetts Institute of Technology Committee for National Service, has brought several hundred men of high technical ability in to the Government service since the war began, is the Associate Director in charge of the technical division of the Reserve. An advisory commission of men who are experts in the problems of industry and labor will be appointed in the near future.

State organizations will be perfected shortly. The Council of National Defense has called on all the state councils of defense to co-operate in every way possible with the Reserve. Each state council will be asked to nominate a director for its state, who will be appointed by the Secretary of Labor. Local organizations will be formed by the state directors in co-operation with the state councils of defense.

A leaflet stating the purposes of the Reserve and why the citizen who desires to serve the country should join it, has just been issued; and copies may be had on application to the U. S. Public Service Reserve, Department of Labor, Washington, D. C.

MAIN EVENTS OF THIRD YEAR OF WAR REVIEWED

Chief Director of British Military Operations Says America's Entrance into the War is Most Important Development—U. S. is General Reserve of the Entente.

London, July 28.—America's entrance into the war is the most important development of the third year of the great conflict in the opinion of Major General Frederick B. Maurice, chief director of Military Operations at the British War office, as expressed in an interview in which he reviewed the main events of the third year and summed up the present situation. "Today," Major General Maurice said, "Germany, whose whole military gospel was to prosecute a vigorous offensive, is reduced to 'a pitiful state of military helplessness in which she is barely able to hang on' in the hope that her submarines will force the people of the Entente powers to demand peace at a time when Germany has the 'big pawns' with which to make a bargain."

"Speaking from the military point of view," said Major General Maurice, "the greatest event of the third year of the war is the fact that the American people joined us. Up to the present, France and Russia always have been able to say to their people that the English power had not yet been developed to the fullest extent and that, when England's full weight was in the field, the pressure on the French and Russians would be somewhat lessened. That still is true, but only to a limited extent. Even England is getting near the point where she must say that she cannot extend her work much further in France. Meanwhile the strain in the continental countries is becoming greater and greater and the French are in real need of more and more support.

"Of course, the same is true and probably in far greater measure in enemy quarters.

Face Future With Confidence.

"But the whole lesson of the three years of warfare is to emphasize the military maxim that the man with the last reserve is going to win, and we still have got the whole power of the United States to draw upon. The United States is today the general reserve of the Entente. With that reserve intact, we may look the fourth year in the face with entire confidence.

"Germany has made the same mistake with regard to the United States as three years ago, she made with regard to England. She argued 'we do not believe England will come in but, if she does come in, she is not a miltary nation and cannot become a military power soon enough to play any part in this war.' We proved that theory wrong as you will prove her theories regarding the United States wrong.

"What was it that lead Germany into war with the United States? She found she could not win on land. It was necessary to try U-boat warfare. 'This,' said the German theorists, 'will defeat England and bring the reign of the Entente to an end. We do not believe the United States will come in but, if she does, she is an unmilitary nation, has no army, cannot create one for many months, perhaps years, certainly cannot become a military factor soon enough to play any part in this war.'

German Theorists Wrong.

"That reasoning sounds unbelievable to us but a drowning man clutches at a straw. We believe the German theorists will be proved as wrong in their estimates of the United States as they were in their estimates of England.

"You asked me what is the outlook at the opening of the fourth year of the war. First, let me give you in epitome the history of the first three years as I understand it.

"The first year, broadly speaking, was an attempt by Germany to put into effect elaborate plans which her military strategists had been preparing over the space of many long years. The first phase was a concentrated attack on France and Belgium during a certain allotted period of time, in which the Germans estimated it would be impossible for Russia to disturb them in the east.

"The attack on France was checked, first on the Marne, later on the Yser and Ypres, altho France and Belgium suffered severely in the process.

"Germany then, according to her plan, took the defensive on the western front and turned her offensive eastward in an effort to knockout Russia. Here again she failed, altho her attack enormously weakened Russia's offensive power.

Abandoned Pre-War Scheme.

"In the autumn of 1915, Germany defintely abandoned her old pre-war strategic scheme and started in on a new plan developed since the war began, namely an effort to upbuild 'Mitel-Europa' as a great block composed of four so-called Central Powers which would command the road to the east. The autumn campaign of 1915, in essence, of the furtherance of this scheme by conquering Serbia, bringing in Bulgaria and halting our Dardanelles effort by rushing munitions, supplies and soldiers to the assistance of the Turks.

"By the winter of 1915 Germany had gone a long way toward realization of her own ambition and this point represents to my mind the grand climacteric of Germay's offensive power. All this time Great Britain had been building up armies, and with the beginning of 1915, we for the first time, had a real army in the field.

"With the Spring of 1916, Germany had come to realize that the conquest of Russia was impossible, Russia was too massive to kill or crush. So the German staff again turned on France and the Verdun attack was the result.

Military Power on Decline.

"With the defat of Germany, at Verdun came a turning of the tide of which further manifestation was seen in a successful British offensive. Previous British military efforts had been, comparatively speaking, minor operations or operations undertaken in support of the French. At the Somme we started our new work and really great, important work it was, altho a great deal of the contemporary effect of the Verdun defeat and of the Somme victory was neutralized by Germany's push into Rumania. The Rumania push, however, viewed in true historical perspective was merely a flash in the pan. The German military power already was on the decline and her offensive strength was nothing like what it had been the year before.

"The end of 1916 found the situation between the two great groups of contestants about equally balanced with the scales leaning slightly in favor of the Entente.

"The year 1917 has presented a still rosier picture. During the whole third year of the war Germany and her allies have attempted nothing on land. They everywhere have been on the defensive. On Germany's eastern frontier, altho the Russian revolution enormously weakened Russia's military power, Germany was incapable of taking advantage of the situation. On the Austrian front, the Italians got into powerful blows. In the west the British and French struck repeatedly and the Germans have been powerless to answer back.

Barely Able to Hang On.

"This is the pitiful state to which we have reduced the great power whose whole military gospel was summed up in the phrase 'vigorous offensive.' Germany's military helplessness, owing to the long strain on her man power, material and resources is such that today she barely is able to hang on and her only hope is that she may find some way of similarly wearing us down and forcing us out of the war before we get up momentum to drive her back.

"At present Germany is banking on the U-boat. She hopes against hope that the U-boat will reduce the people of the Entente powers to the same state of want, privation and suffering which she has been enduring for months and years past. She hopes to make the Entente people cry enough and start peace parleys while she still has got the big pawns with which to bargain at a peace conference."

BIDS FOR COAL.

Bids are hereby asked for supplying the city light plant and pumping station with coal for the contract year, which will begin August 9, 1917. Bids are desired for the light plant on mine run, No. 4 and 5 washed, egg; 1 1-4 inch screenings; for pumping station mine run and steam lump.

The council reserves the right to reject any and all bids, which will be received until 10 a. m. Tuesday, July 31st.

R. L. Pyatt, City Clerk.

Do You Enjoy Kitchen Work
Or is It a Drudgery and Care?
One-half your time, Mrs. Housewife, is spent in the kitchen and you owe it to yourself and family to make this portion of your time as free from care and worry as possible. The kitchen range receives more constant use than other household article. Therefore why not have the most modern and convenient range you can buy?

A Leonard Hi-Oven Range
(Burns Coal or Wood—May Be Equipped for Gas)
Makes Kitchen Work More Pleasant
Leonard Hi-Oven Ranges are especially designed to make housework easier. They are built for your convenience. Think of the advantage of the elevated oven—no stooping—all work done in an easy, upright position and the baking always in sight owing to the glass over door. The nickeling is smooth and easy to clean—no rough places to catch the grease and dirt—and not too much nickeling either. A Leonard Hi-Oven Range takes the "ake" out of bake and saves work and worry for YOU.
JUST THE SIZE YOU WANT
You can buy a Leonard Hi-Oven Range in just the size you want. The 48-18 size requires a third less space in the kitchen than an old style low oven range and yet it has ample cooking surface for the average family and a large 18-inch oven. Then there is the 68-20 size, which has a large cooking surface and a 20-inch oven. There is a size and style just suited to your needs.
Come in and let us show you this range wonder.
There is a style to suit YOU

YANKEES TAKE DOUBLE HEADER FROM CHICAGO

GREATLY REDUCES SOX LEAD IN LEAGUE RACE

Double Victory Enables New York to Break Even on Its Six Game Series—Boston Makes it Five Straight From St. Louis

New York, July 28—New York greatly reduced Chicago's lead in the league race here today by defeating the pace setters in both sections of a double header 5 to 4 and 4 to 3. The double victory enabled New York to break even on its six game series.

New York won the first game in the eighth inning, breaking a tie score, when Pipp walked, took second on Baker's infield out and scored on Marsan's single.

The second game also was decided in the eighth inning.

JACKSONVILLE U. C. T. TEAM BLANKS SPRINGFIELD TOSSERS

Jacksonville's U. C. T. baseball team defeated the Springfield U. C. T. team at Thomas and Clark park in Springfield Saturday afternoon by a score of 5 to 0. Only one Springfield man reached second base and that was thru an error. Sloan let the Sprirgfield team down without a hit and struck out fifteen men. Woodman and Schilling furnished the fielding features and Lavery and Mann the batting features, Lavery scoring two of the runs with a double. The umpires were Gard, Jacksonville, and Winters, Springfield. Fully 300 spectators witnessed the game. Springfield will play the local U. C. T. team on the State hospital diamond next Saturday. The lineup:

Springfield—Covi c, Martin p, Doyle 1b, Stevenson 2b, Edison ss, Condon 3b, Campbell rf, R. Edison cf, Miller lf.

Jacksonville—Mann c, Sloan p, Lavery 1b, Schilling 2b, Woodman ss, Coe 3b, Cain rf, Smith cf, Phillco lf.

WALLON WINS MARATHON

Chicago, July 28—"Buddy" Wallin of the Hamilton Club won the ninth annual Chicago River Marathon today, swimming the course of one and one half miles in 35 minutes and 55 seconds. His time was two seconds faster than last year when he won the race.

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. STOPIEL, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

CUBS DOWN NEW YORK IN THE TENTH INNING

ART WILSON'S DOUBLE WINS FOR CHICAGO.

Zeider Starts the Inning With Walk and Scores when Wilson Hits the Center Field Fence—Brooklyn Takes Two Games from Pittsburgh.

Chicago, July 28.—Art Wilson's double in the tenth inning gave Chicago a six to five victory over New York today. Zeider started the inning with a walk and scored when Wilson hit the centerfield fence. The game was one of the hardest fought here this season.

Willard STORAGE BATTERY

BASEBALL GOSSIP

Dilhoefer, the Cubs' young catcher, gives promise of becoming a regluar big league backstop.

As a member of the Browns, Lee Magee is hitting better than he did while pastiming with the Yankees.

Duffy Lewis of the Red Sox, who is usually there with a healthy wallop, has been suffering a bad slump of late.

"Big Ed" Walsh, former White Sox star, believes his pitching arm i sstill strong enough for him to take his turn on the firing line for the Braves.

George Twombley, formerly with the Braves, has joined the Providence team of the International leagus.

Les Mann, the Cub's gardener, whoe hitting set the National league ablaze earlier in the season, has dropped out of the heavy hitting squad.

Right field seems to be the weak spot in the Detroit Tigers' lineup. Hughey Jennigs is kept busy trying out pastimers in an effort to strengthen the old Crawford territory.

Evidently Christy Mathewson has reversed conditions in Cincinnati. Heretofore the Reds were thru about this time of year, but now the farther they go the better they look.

Pitcher Alexander is improving his standing among the leading National league heavers. Barring accidents, the Phillies' star will be there or thereabouts when the big drive comes this fall.

The Yankees have had a strenuout itme this season trying to stick in the first division. All season it's been a case of the Yanks fighting their way in only to be thrown out again.

"Kitty" Bransfield has made good as an umpire in the National league. Klein and the odl Phirate-Phil pastimer form a pair of aribters second to none in the business.

Trying to escape the celler has developed into a three-cornered contest between the Browns, the Mackmen and the Senators, second in interest only to the big fight between the two Sox teams for the pennant.

Seldom does a pennant winning team fade so quickly as have the Dodgers. Same boss, same outfit, same everything as last season, and yet the 1916 Champs can't get anywhere.

CUBS BUY WALKER

Chicago, July 28.—The Chicago Nationals today purchased Pitcher Walker from the New Orleans club of the Southern association. President Weeghman in making the announcement said that seven big league scouts were present when he closed the deal over the long distance telephone. Walker is a right hander and is said to have a record o fstriking out an average of nine men in a game.

FRENCH FINANCES UNSHAKEN BY WAR

Is Opinion Expressed by Eminent Authority on Economic Questions —Discusses Outlook at Beginning of Fourth Year of Conflict.

Paris, July 28.—French finances have been unshaken by the war in the opinion expressed to The Associated Press by Charles Gide, of the University of Paris, an eminent authority on economic questions, discussing the outlook at the beginning of the fourth year of the conflict.

"France," said M. Gide, "has spent about 70,000,000,000 on three years of military effort. Yet in the thirty-sixth month of hostilities, the French people are investing in short term treasury bonds as freely as they were two years ago, that is, at the rate of about 1,000,000,000 a month."

As evidence of the excellence of French credit, M. Gide pointed to the co-operation of the United States which, he said, "brings formidable aid to France and her allies. This," he continued, "not only removes all doubt concerning the result of the war from a military standpoint but relieves the financial situation by diminishing the drain upon French gold.

"The money which France has spent to sustain her military effort inside the country swells the figures of her outlay to immense proportions, but this outlay cannot be considered a dead loss except in such proportion as is spent for steel, explosives and other material made to be destroyed. Increased prices paid for every commodity, it must be remembered also, has vastly increased the revenues of the French people. Before the war these revenues were 30,000,000,000 to 35,000,000,000 francs. Now they are 50,000,000,000 francs annually. These figures show that, formidable as the war debt may appear at first sight, the problem of its liquidation is not so alarming after all.

"France can stand another year of war outlay as well as she stood the third year. It would be embarrassing for her to pay in gold for everything bought abroad, but this difficulty has been relieved by the credit generously granted by the United States.

"France will get thru the war financially sound, will reconstruct her industries rapidly and her interior situation will be liquidated without causing any economic upheaval." Referring to the situation of other belligerents, M. Gide, said:

"I do not think any country will be ruined by the war. All are more or less in the same situation as France. The only real drain upon their resources is what they pay abroad. The best expenditure is that which might be called fictions; that is, the transfer of money from the pockets of some citizens to the pockets of others, a transfer in which a great many new fortunes have been built up but in which the real riches of the country have been left untouched."

Referring to the economic measures to be taken after the war and to the complaints by Germany of an effort by her enemies to ruin her economically, M. Gide said:

"The talk of an economic war after the belligerents lay down their arms has almost subsided. I consider it neither possible nor uesful for Germany to be crushed commercially. She will be vanquished on the battlefield, her military power will be crushed, but she will be left free to work out her own economic destiny."

HIGH SPOTS IN THE GREAT WAR THREE YEARS OLD JULY 28 1917

1914

July 28—Austria declared war against Serbia, following assassination of Archduke Francis Ferdinand; Germany mobilized fleet.

Aug. 1—Germany declared war against Russia.

Aug. 2—Gedmany violated Belgian neutrality.

Aug. 3—England announced she would fight if German fleet attacked French coast.

Aug. 4—Germany declared war against France; Germany declared war agasint Belgium; England declared war against Germany; Latter retaliated.

Aug. 6—Austria declared war against Russia; Russia declared war against Austria.

Aug. 7—Montenegro declared war against Austria.

Aug. 9—Austria declared war against Montenegro.

Aug. 10—France declared war against Austria.

Aug. 12—Montenegro declared war against Germany; Great Britain declared war against Austria.

Aug. 23—Japan declared war against Germany.

Aug. 25—Austria declared war against Japan.

Nov. 5—England declared war against Turkey.

1915

May 23—Italy declared war against Austria.

May 24—Germany announced state of war with Italy.

June 3—San Marino declared war on Austria.

Aug. 21—Italy declared war on Turkey.

Oct. 15—Serbia declared war on Bulgaria.

Oct. 15—Great Britain declared war on Bulgaria.

Oct. 16—France declared war on Bulgaria.

Oct. 19—Italy declared war on Bulgaria.

Oct. 19—Russia declared war on Bulgaria.

1916

March 9—Germany declared war on Portugal.

Aug. 28—Rumania declared war on Austria.

1917

Feb. 3—President Wilson severed relations with Germany and dismissed Ambassador von Bernstorff.

Apr. 2—President Wilson addressed Congress and asked for a declaration that a state of war exists.

Apr. 4—War resolution passed by United States senate.

Apr. 5—War resolution passed by United States house of representatives.

May 18—Gen. Pershing selected to take United States army division to France.

June 8—Gen. Pershing and staff arrived in France.

June 10—Gen. Pershing met King George and conferred with British army heads.

June 14—Gen. Pershing and staff welcomed in Paris.

June 27—First contingent of American troops landed in France.

June 20—Drawing held under conscription law for selection of men to compose the great national army.

REUNION OF BANGS FAMILY.

Brewster, Mass., July 28.—Several hundred descendants of Edward Bangs, who came from England in 1674 and was one of the earliest settlers in this section of Cape Cod, came here today to celebrate the sixth annual reunion of "The Edward Bangs Descendants." The association numbers members in nearly every section of the United States and Canada. A feature of the reunion wil be a memorial service in the First Parish church tomorrow morning.

LETTER DESCRIBES LIFE ON BATTLE FRONT

Arthur F. Jones, Formerly Student Here and Now With Canadian Troops in France, Gives Interesting Facts Concerning Life in Trenches

The Macomb Bystander in a recent issue contains a letter written by Arthur F. Jones, formerly of New Philadelphia and who is now on the battle front of France. Mr. Jones is quite well known to a number of Jacksonville people as he was a student here for several years and during part of that period was one of the Journal's carrier force. When he enlisted with Canadian troops he was an operator on the Canadian Pacific railroad. His letter from the trenches as published contains much that is of interest::

"I am serving with the heavy artillery here, and find it quite interesting. Along with air fights, the roar of artillery, I am seeing things every day which surpass my greatest imagination. My home is a dugout, and while the weather is fine I have nothing to complain about, for I have long since learned to make myself at home most any old place, so long as I have a dry place to sleep and prospects of getting something to eat.

"We are located on the site of what has been either an agricultural institution or a health resort, but of which nothing remains standing but barren, jagged edged walls, and heaps of bricks.

Have Few Shade Trees

"There are lots of dugouts and old trenches about and we are blessed with a few shade trees, which Fritz was evidently content to leave standing. I have been up the line twice to view our famous ridge, the last time took my departure rather suddenly, being urged on by three shells from Fritz.

"Three of us, all operators were up scouting around, and were evidently spied by Fritz, for the first thing we knew a shell dropped with a bing-bang, about 15 yards from us, and we immediately evacuated the ridge. We had gone about 50 yards when he put another over, almost in the same place. However, I managed to secure a German steel helmet, with two shrapnel holes in it, for a souvenir, and am still alive. It is simply indescribable the way the ridge is torn up with mine craters, and shell holes, and I am not capable of picturing such a scene, for I know it is beyond a person's imagination. There are here and there feet protruding from the ground, the feet of some poor fellow partly uncovered by a shell. There are also any amount of evacuated German bombs, and ammunition, which are not safe to handle as souvenirs and are too dangerous to take any chances with. Some of the German dugouts are simply marvelous in depth and accommodations. Of course he had held the place so long that he had become well established and no doubht thought that such a thing as reverse and turning of the tables was impossible until it was demonstrated to him.

Constantly Patrol the Air

"One of the greatest sights of all is the flashes and the roar of a bombardment at night. Last, but not least, are the hawks of the air, which are continually busy patrolling the air and sailing among the clouds and now and then turning dips or looping the loop, and diving low just to show that they are there and in good spirits. Last night they brought down a German plane, and day before yesterday three were brought down out of five, but they flew so high that it was impossible to detect them with the naked eye. We enjoy plenty of sports such as baseball and football and other pastimes and are not so bad off, as long as the weather remains good.

"I am looking forward to the time when the war shall end and I can get my feet on North American soil again."

NOTABLE BIRTHDAYS TODAY

July 29

Alan Ramsey Hawley, president of the Aero Club of America, who has been using his influence and expert knowledge to induce Congress to make an appropriation of $1,000,000,000 for a great fleet of aeroplanes with which to fight in Europe, is 43 years old today, having been born in Perth Amboy N. J., on this date in 1874. Mr. Hawley is a flyer himself, holding the long distance American record of 1172 miles. A graduate of Trinity college, Hartford, and for a time a financier engaged in business in Wall Street, he is now retired from active business and is giving his time and means to the development of aviation in the United States. He urges the construction of 100,000 planes, for two reasons: first, because, he says, 25,000 aviators could do more to end the war than 1,000,000 ordinary soldiers fighting on land; and second, because following the war the surviving fleet can be used for transportation purposes inasmuch as machines and aviators equal to such tasks will, he says, be ready, even for transatlantic flight.

Max Simon Nordau, a founder and one of the eminent leaders of the Zionist movement, 68 years old today.

Rt. Rev. Thomas S. Byrne, Catholic bishop of Nashville, 76 years old today.

S. Stanwood Menken, the new president of the National Security League, 47 years old today.

Booth Tarkington, celebrated American author and playwright, 48 years old today.

John T. (Chief) Meyers, of the Brooklyn baseball team, 35 years old today.

DANIELS RETAINS OSBORNE

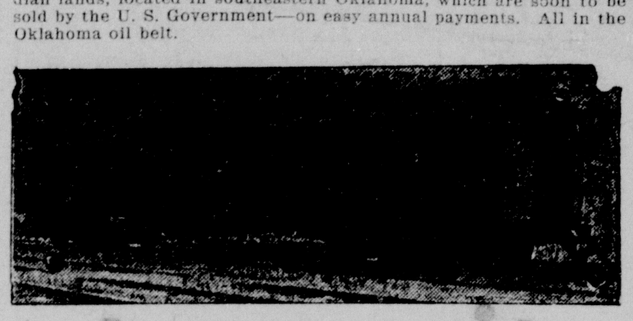

Washington, July 27—Thomas Mott Osborne, former Sing Sing warden who recently undertook an investigation of navy prisons at the request of Secretary Daniels has been retined as an ataiche of the department to advise officials in charge of the prisons.

U. S. Government Indian Land Sale

For a Few Days Only!

The Private Oklahoma Indian Land Car

now in Jacksonville has been sent here for the purpose of advertising the opening of a half million acres of Choctaw and Chicasaw Indian lands, located in southeastern Oklahoma, which are soon to be sold by the U. S. Government—on easy annual payments. All in the Oklahoma oil belt.

This Car Spells Opportunity to You!

OIL! OIL! OIL!

THE GREAT NEW STATE OF OKLAHOMA rolls in liquid wealth. Thousands made rich. Oil hits top at $1.70 a barrel! State produced 157,000,000 barrels last year. Throughout the oil fields are wonder examples of fame and fortune gained at the rush of oil. Dan Tucker, 10-year-old boy, gets $190 daily, oil royalty. Sarah Rector, a colored child, receives fifteen thousand dollars monthly. Henry Page, former railroad brakeman, gets one hundred thousand dollars monthly from oil leases. Roy Johnson, a Michigan printer, cleared a hundred thousand dollars on a two hundred dollar investment. Cole McGhee, Oklahoma carpenter, made $83,000 on one hundred and seventy-five dollar investment. Hundreds of others, purchasers of cheap Indian lands, and heirs to Indian allotments, have reaped huge fortunes from oil royalties.

This is the chance of a lifetime, as the government does not require you to live on these lands or improve them, and they can be bought direct from the U. S. Government at a few dollars per acre on easy payments. Irrigation not necessary. Forty-five inches of rainfall, agricultural, grazing and timber lands, close to railroads and prosperous, growing town.

The Oklahoma Indian Land Car contains an extensive display of Oklahoma products, both agricultural and mineral, as well as numerous photographic views of western development. For those interested in the Indian lands we have maps, charts, plates, blue prints, etc., and skilled demonstrators are on hand at all times to acquaint the public with the terms and conditions.

DON'T FORGET

The population of the United States doubles every thirty years, but there never will be any more land than there is today. Think it over. Open daily and Sunday, 9 to 12 a. m., 1 to 6:00 u. m. and 7 to 9 p. m.

Something New In the Moving Picture Game

A modern and up to date Moving Picture Theater on wheels. A most attractive, new and novel proposition in a new dress, which is bound to appeal to the masses of the people. Will absolutely be a wanner and a great success.

THE ONLY ONE IN THE WORLD
THE "ROLLING PALACE PICTURE SHOWS", CAR NO. 1

The wonderful appearance of this car is a most beautiful sight. White enameled, trimmed in red and green, with a row of lights around car for illumination.

Note dynamo room, directly under car.

From this we produce our own electricity for light and power.

We change towns and people (Not Films)

SEATING CAPACITY 160

We have eliminated two-thirds of the overhead expense of a moving picture theatre. The "Rolling Palace Picture Shows", incorporated, is a $10,000) Illinois corporation of Springfield, main offices at suite No. 31 Illinois National Bank Bldg. The capital stock of $10,000 is composed of one thousand shares, ($10) each, fully paid and non-assessable.

E. B. JONES, Pres. HARVEY SHELLER, Secy. R. C. JONES, Treas.

The management are gentlemen of experience in the amusement game and financial world with character and the required ability to properly conduct an enterprise of this magnitude.

WE ARE FULLY EQUIPPED AND READY TO SHOW

Will leave Springfield in about two weeks for northern Indiana resorts, exhibiting at towns en route, thence south for winter months and back through north and Michigan during coming summer, showing all year round.

THERE ARE TWO POSITIONS OPEN TO PARTIES

that will be in position to contract their services to travel with car, the salary is not less than $25 per week. Want one man at once and the other to be ready to join us about Sept. 1st. That we may acquire a greater efficiency in every department, we require every employe to be financially interested in the company. We have reserved two hundred shares of the capital stock for this purpose. This is all of the stock that remains to be disposed of.

Only two hundred shares, $2,000 worth of this stock is for sale and is all that can be bought.

This is an entirely new proposition and experience is unnecessary. However, no sport, drunkard, gambler or one whose nature is to watch the clock to know when to quit, need apply. We must have hustlers and those feeling a personal interest in the company.

We want party to join us at once, (young man preferred) who can take part or all of the above mentioned stock that is for sale.

This is a clean, legitimate business proposition, open to inspection.

GRAFTERS AND PIKERS NEED NOT ANSWER OR APPLY!

This is your chance, if you mean business. Get in on the ground floor now. Will start on more cars right away. Now is the time to act.

WILL TAKE YOU TO SPRINGFIELD FOR INVESTIGATION

For all details, call in person Saturday, Sunday and Monday, Room No. 253 New Pacific Hotel. Ask for Mr. Sheller, Secy.

MR. AUTO OWNER!

Why throw your old auto tires away when they are good for 2500 to 6500 more miles.

My method of taking two old tires and making one good one is saving thousands of auto owners from 50 to 75 per cent on their bills.

Send me two old tires and I will make one good tire that you can get from 2500 to 6500 more miles out of. In sending me tires be sure one has a good rim no matter how bad the tread is worn. For the other one that has a good tread no matter what condition rim is in.

If You Haven't a Tire with a Good Tread I Can Furnish You One

PRICES FOR DOUBLE TREADING

SIZE	When you furnish both tires	When You Furnish one tire	SIZE	When you furnish both tires	When You Furnish one tire
30 x 3	$2.25	$4.00	35 x 4	$3.25	$6.25
30 x 3½	2.50	4.25	36 x 4	3.50	6.50
31 x 3½	2.50	4.50	34 x 4½	3.50	6.50
32 x 3½	2.75	4.75	35 x 4½	3.75	7.00
34 x 3½	3.00	5.25	36 x 4½	3.75	7.00
32 x 4	3.00	5.50	37 x x4½	4.00	7.50
33 x 4	3.00	5.50	37 x 5	4.00	8.00
34 x 4	3.25	6.00			

Where a tire is blown out an additional charge of 50 cents is made. Patches necessary in a tire, an added charge of 35 cents for each 10 inch patch.

Tires sent to me should be prepaid as I pay no transportation charges either way.

A Pan-American Stock Advertisement

By Harry C. Pfaff

Short Sketch of Mr. Pfaff's Career **Executive experience with Ford Motor Company, the Maxwell-Briscoe Company, the Monroe Motor Company, and the Edwin Greer Automobile Company of Chicago. Pioneered the Chevrolet automobile in Illinois and built its business up from next to nothing to a tremendous volume. Then went to Cincinnati for the Chevrolet people and met with equal success. Today is sales manager of production for Pan-American Motors Corporation.**

I WANTED QUALITY GROWTH

Put yourself in my place a month ago. Here I was, a man who had grown up with the automobile business; lined up with a very good motor concern, doing fairly well. But I was not satisfied. I had the desire to expand, to grow. But I did not want to grow just in the size of my **activities.** I wanted rather the **fighting feeling of quality growth.**

AN IDEAL CONNECTION

How many times did I picture myself an ideal business connection! This is what I wanted: An automobile organization built on a progressive, vital, **new** motor-value idea; solid, modern business men as associates; a healthy, democratic method of capitalization; full freedom to work out my own sales ideas in my own way with such an organization. **And then, after a long search, I found it in the Pan-American.**

Anybody who had fair ability and good experience, it seemed to me, could, with an even break in luck, get a connection with an established, big motor concern. This was proved to me because several such concerns offered me sales-managerships. I did not want them. My desire was: Something so big that I would need it and yet in that stage of growth where I could hurtle every ounce of my energy, every atom of my brain power, every second of my time into it and **make the world know it is big!**

Profits!

$1,000 invested in Ford Motor Company of Canada has returned in 11 years	$424,878
$1,000 invested in H. H. Franklin Mfg. Co. has returned in 9 years	$ 15,813
$1,000 invested in Hupp Motor Car Company has returned in 7 years	$191,200
$1,000 invested in Paige-Detroit Motor Company has returned in 6 years	$ 20,080
$1,000 invested in Chalmers Motor Company has returned in 8 years	$ 86,658
$1,000 invested in Chandler Motor Company has returned in 3 years	$ 35,000
$1,000 invested in Federal Motor Truck Company has returned in 7 years	$ 78,782
$1,000 invested in Reo Motor Car Company has returned in 11 years	$ 56,462

Now I have my chance with the **Pan-American Automobile.**

TO INVESTORS

I am putting everything I have into the Pan-American, and all I can say to the man who has money to invest is: Get in NOW. You will be in on tomorrow's best automobile proposition. Send the coupon **today** for details—details which will convince you and inspire you just as I was convinced and inspired. You will read the roster of business men, bankers, farmers and automobile experts who believe in Pan-American. You will then be able to understand why one factory of the vast Pan-American plant has already—in less than three months' time—been rushed to completion. You will see why two other factories had to be bought immediately because business is already so good that the Pan-American Motors Corporation could not wait for the next factories to be built. You will realize why the plant of **many** factories which will be completed in a year will do a business that will at least **triple** the value of today's $10 shares. . .

Get Details Now!

I expect a 25 per cent rise in Pan-American stock at any time now. It has been hard to keep the price down t opar. I advise you to get the details immediately. Send the coupon **today,** and get in on this excellent investment proposition whilee you have the chance to make the greatest profit.

SHEEP CLUBS TO ENCOURAGE INDUSTRY

Wool Supply if Far Below Needs of Help.

There have been calf, pig, corn and other kinds of clubs for the farmer boys and girls operating for several years, but it has remained for the Bradley Knitting company of Delavan, Wis., to start the sheep club. The purpose is to increase interest in sheep and incidentally the supply of wool, and so an effort is being made to have the farm boys all over th country take an active interest. Henry Frisch of Myers Bros. yesterday called attention to this plan, from which it is hoped that profitable sheep production may be started on many farms.

Wool Supply Short

Some of the facts about the Bradley sheep club plans are mentioned in the following paragraphs:

Wool is one of the very few everyday essentials that we do not raise in sufficient quantities to meet our wants. Our annual consumption of wool is about six hundred million pounds, this year we will raise about two hundred sixty million pounds. While our population is increasing, our sheep are decreasing. In 1900 there were one million farmers keeping sheep—today there is but few more than half a million engaged in raising sheep and wool. There are more than twelve million less sheep today than in 1900.

In the warring countries sheep have been slaughtered by the millions, and consequently there will be a great shortage of sheep and wool for years to come, which means that the sheep raiser is going to receive large profits from his flock. It is claimed that the United States can profitably increase the number of sheep to one hundred and fifty million. After taking all of these facts into consideration, we decided to do all in our power to bring the seriousness of this situation to the attention of the boys of the United States. In our opinion that is about the only way to remedy it, as they will be the farmers of tomorrow and we want to impress upon them the importance of sheep raising.

A Valuable Industry

We want to show them that it is a most valuable branch of animal husbandry. After taking the matter up with various agricultural colleges, and men high in the live stock world we decided on the Bradley Sheep Club as a means of showing the young men of the country the importance of sheep raising. Details of the club have been carefully worked out. You will find the plan of pages 15 tnd 16. It is our hope to get several thousand boys interested in sheep raising. Many of these boys will receive a flock of sheep without any cost whatever to themselves, as you will note that we will cancel a number of the notes each year.

Quarterly bulletins will be issued to keep up their interest, and keep the boys informed as to just what their brother workers are doing. It is hoped that at the end of the five-year period this Sheep Club will have been the means of increasing the number of sheep in the United

Some Statistics

Sheep eat 576 different weeds out of 600 that grow in Kansas, statistics show, and on practically every farm a small flock of sheep can be kept at little or no expense. A hundred million pounds of wool are needed to put clothing on the men of the regular army and navy and the forthcoming national army. It will require 80 pounds more per man than in civil life and as the U. S. in the past has imported 350,000,000 pounds of wool and now can receive little, the wonder is, what the people who stay at home are going to do about wool clothing. It is this situation that led to the organization of the Bradley sheep club and the plan is outlined as follows:

Plan Outlined

"We will finance a number of boys in all sections of the country. They will constitute of Class A Club. These boys will be selected by means of a contest. To all of the boys who enter this contest and are successful in winning one of the grand prizes that we offer, we will try and give a small flock on the same terms as the Class A Boys. The Class B will be financed by local banks, our dealers in some cases, and some of the larger interests. One railroad president has offered to finance a number of boys. A Chicago Live Stock Commission House donated a carload of ewes. One of our largest farm papers has promised to supply a number of worthy boys with sheep.

"We want at least 5,000 boys throughout the country in our class B. We want you to assist us in this movement. We want you to see that every farm boy in your vicinity is supplied with one of our booklets, "How to Care for Sheep." Here is what Wm. P. Brooks, Director of the Massachusetts Agricultural College, thinks of the book: "I congratulate you on the pamphlet. It seems to me to be excellent. Any intelligent person who will consult it freely should be able to take intelligent care of sheep." Thousands of boys from all over the country are writing for the booklet. The country is ready for the movement. With your assistance we can make it a success in your vicinity."

Pamphlets and application blanks telling about the sheep club and prizes can be obtained at the Myers Bros. store.

CANNOT EXPRESS HONEST OPINION

"I Lack the Words to Praise Tanlac Enough", Havens Says

"I simply can't find the words to say enough in praise of Tanlac", was the tribute paid the Master Medicine on July 17 by John B. Havens, prominent and well known local resident of 1031 North Diamond street.

"I've suffered for the past ten years," he continued. "Invariably after meals I would suffer intense pains in my stomach. I never dared to eat vegetables or heavy food because of the bad after effects. In fact, I didn't know what it was to enjoy a meal, until I began using Tanlac. I was very nervous, too, and found it hard to sleep at night.

"Well, sir, I believe I've tried practically every kind of medicine but can truthfully say that Tanlac is the only one that gave me the needed relef. All my meals are a pleasure now. I can eat vgetables or anything I care for now, without experiencing the least bad after effect. My nerves, too, are much steadier and I sleep much better at night. I wouldn't be without Tanlac again and I want everyone to know of the benefits I've derived from it so that they will become convinced and try the new medicine.

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Coover-Shreve Co. It is sold in Waverly at the Wyle Drug Co.; in New Berlin at the New Berlin Drug Co.; in Ashland at H. O. Brownback's; in Versailles at A. G. Bates'; in Chapin at F. P. McKinney's; in Roodhouse at W. D. Berry's; in White Hall at the City Drug store; in Bluffs at F. T. Curtis', in Pittsfield at J. H. Barber & Co; in Loami at L. N. VanDeren's; in Divernon at E. G. Haug's; in Manchester at C. D. Chapman's and in Winchester at the City drug store.—Adv.

A Russian inventor has perfected a two wheel automobile that is balanced by a gyroscope. What some inventor needs to perfect more than anything else at the present is something that will balance the Russian equilibrium.

* * *

It cost the city of Havana $369.27 to locate three places that were selling liquor without a city license. Of this amount $177.27 was expense money for the detective on the job. He must have had to do a lot of sampling before he was able to decide whether or not liquor was being sold.

JURY ACQUITS SCOTT

San Francisco, Cal., July 27—Joseph J. Scott, former collector of internal revenue for the first California district was acquitted by a federal jury today of embezlement of government funds.

Scott's attorneys contended that his political activities in behalf of President Wilson's reelection caused him to neglect his office.

ANNOUNCE FORMATION OF JEWISH REGIMENT.

London, July 27.—The war office has annonuced the formation of a special Jewish regiment of infantry with experienced officers in the higher commands. The regimental badge will be a copy of King David's shield.

TRAINING STATION HAS LARGEST MILITARY BAND

More Than Three Hundred Musicians Members of Organization at Great Lakes Naval Station—Is Large Factor in Accelerating Patriotism In Middle West.

Great Lakes, Ill. July 28—The part which music plays in modern warfare is daily demonstrated at the United States Naval Training Station here, where since the outbreak of hostilities with Germany, the largest military band in the country has been built up. Beginning with a neucleus of 16 pieces, in a few short months a smooth running organization of more than 300 musicians has been established, and it is the hope of Captain W. A. Moffett, Commandant, that the band will number 500 pieces.

Lieutenant John Philip Souza, director of the organization, and J. M. Maurice, bandmaster, have been deluged with applications for admission, many of them from distant parts of the country and it is expected that with the rapid development of the organiaztion it is likely to achieve distinction rivalling that of the famous United States Marine Corps Band of Washington.

Has Assisted in Recruiting.

"From the beginning of the war the Great Lakes Band has demonstrated its value to the country in the national emergency," said Mr. Maurice, "it has stimulated and aroused the public and assisted in recruiting."

The organization numbers six separate bands, in addition to a fife and drum corps, a bugle squad, and a "jaz" band. These members come from cities of remote as San Francisco and many of them left lucrative positions with some of the most widely known musical organizations in the country. Texas contributed its most famous "jaz" quartet. From Minnesota came two widely known twins, Floyd and Fred Frankston, nephews of the Lieutenant Governor of the state.

Captain Moffett insists that his musicians are second to none and their concerts at patriotic rallies in nearby towns have been more popularly received than those of any other organization. A sidelight illustrative of the high regard in which the band is held is contained in a remark by Herbert Clark, famous cornetist, who when he heard the organization play for the first time, said, "There are many new faces in your band, Lieutenant Sousa." Lieutenant Sousa, however explained that the band was not Sousa's Band, but the Great Lakes Band of the United States Naval Training station and its members are men enlisted in the service of the United States Navy.

Constant Practice Necessary.

With 11,000 men in training on the station, ap art of the band is playing in some section of the Naval Reservation thruout all the daylight hours. To bring it to its high standard constant practice is nesessary. Bandmaster Maurice has composed several stirring marches and songs, as has Mr. Sousa. Mr. Maurice's latest effort 'The Navy Forever" is a march dedicated to Captain Moffett, Commandant of the Station.

However, Mr. Maurice and Mr. Sousa assert that the song which is going to be the American Tipperary in the present war is one which will not constantly remind our soldiers and sailors that are patriotic.

'No good sailor likes to be talked to about patriotism," said Mr. Sousa recently "I should as soon care to be asked if I knew anything about music. The fact that a sailor wears a uniform is the symbol that he is the guardian of patriotism, it is his job. As soon as he is in the service it is his life and when he sings he is not going to sing about himself, but about something different. In my years of experience with military bands I have found that the music that brings tired and hungry men back home with their heads up and their feet swinging is not patriotic music, but such selections as Annie Laurie or the Old Folks at Home."

Maintains Singing School.

Unlike other bands, the Great Lakes organization is a singing band and a regular singing school is maintained for the purpose of cultivating the voices of its members. An innovation introduced has been a combination concert and song festival—the musicians playing a part of the score and singing words of the rest and the picking it up with the instruments where they left off with the voices.

"To much credit cannot be given to the Great Lakes Naval Training Station for the development of this magnificent organization which has been one of the large factors in accelerating patriotism in the middle west," said a widely known musician recently.

And so, altho the Great Lakes Band is already an efficient organization, Band master Maurice announced today that it offers an opportunity to any young musician of ability increase in proficiency. He pointed out that the training in this organization should mean much to any musician and advises men who wish to enter it to apply to their nearest recruiting offices.

RETURN VERDICT OF FIRST DEGREE MURDER

NEW YORK, July 27—A verdict of guilty of murder in the first degree was returned by a jury here tonight against Joseph Cohen, on trial with David Jacobs, Jacob Cohen and Abraham Graff, for joint complicity in the murder of Barnet Baff, a poultry dealer who was killed by gunmen in 1914. Graff was found guilty of manslaughter in the first degree. Jacob Cohen and Jacobs were acquitted. Frank Ferrera, driver of the murder car, and Giuseppi Arichiello, a gunman, are awaiting execution in the same case.

Business rivalry was the motive which led to the killing of Baff, known as the "poultry king," and a bitter enemy of the so-called "poultry trust." Antonio Cardinale who turned state's evidence confessed that the price for killing Baff was $4 800.

ASK FOR PROTECTION AGAINST MOB LAW

Colored Knights of Pythias in Session at DuQuoin Pass Resolution Calling Upon Government to Protect Race.

At the recent session of the colored Knights of Pythias held in DuQuoin, a resolution asking for protection of the colored race against mob law such as recently occurred in East St. Louis, was passed. The resolution which was as follows was sent to John W. King who represented Mallory Lodge at the sessions.

DuQuoin, Ill., July 19th, 1917.

Whereas, at its 26th annual session, held in the City of DuQuoin, Illinois, the Grand Lodge, Knights of Pythias of North America, South America, Europe, Asia, Africa and Australia, Jurisdiction of Illinois, has drawn together representative colored men from all parts of the State of Illinois, and

Whereas, in recent months, the relation of colored people to the other people of this country has been widely discussed and severe disturbances of the general peace have occurred because of the unreasonable and unjust refusal of certain people to accord to colored citizens the full and equal right, under the law, to enjoy the fundamental rights of life land property, which include the right to move freely from one part of the country to another, and to work wherever employment may be found; and

Whereas, the National Association for the Advancement of Colored People, in years past, has consistently defended the citizenship rights of colored people, and has now appealed to us for assistance in the stress of recent conditions:

Therefore, Be it Resolved by the Grand Lodge, Knights of Pythias of North America, South America, Europe, Asia, Africa and Australia, Jurisdiction of Illinois, that the colored people, by reason of their loyalty and service, are part and parcel of the American citizenry and of right, ought to be and are entitled to the full and equal enjoyment of all the rights of American citizens; that every agency of the Government is bound by law to protect colored people against any denial of these rights by reason of color or race; and that it is essential to the security and advancement of American ideals of democracy that colored citizens be accorded the protection of the forces of law and Government in the exercise and enjoyment of the natural and inalienable rights of all citizens alike.

Be it further resolved that outrages against colored people, especially where no question of crime is involved, constitute a serious attack upon American Institutions, and, if not rebuked and repressed, threaten to destroy the efficiency of our laws, expose our country to the contempt of other nations, and endanger the progress of democracy thruout the world.

Be it further resolved that we command the National Association for the Advancement of Colored People for its prompt, vigorous and humane work on behalf of colored people.

Be it further resolved that One Hundred Dollars be appropriated and placed in the hands of our Grand Chancellor, to be expended and applied by him as he shall deem best in the relief and protection of our people in this emergency; and that an appeal be made to our subordinate lodges to take up voluntary contributions and place them in the hands of our Grand Chancellor, to be likewise expended and applied by him as he may deem best for said purpose.

Be it further resolved, that a copy of these Resolutions be sent Honorable Frank O. Lowden, Governor of Illinois, and to Honorable Samuel Insull, Chairman of the Illinois State Council of Defense, and to the Press of the Country.

S. A. T. Watkins,
R. A. J. Shaw,
Albert B. George,
Committee.

A VERY DEEP CUT IN PRICES TO CLEAN UP OUR LARGE STOCK OF LADIES' READY TO WEAR GARMENTS AND MILLINERY — THIS COMING WEEK AT HERMAN'S.

CONFERENCE ON LIVING COSTS.

Washington, D. C., July 28.—Arrangements have been concluded for the conference to be held here Monday and Tuesday to consider the high cost of living. Delegates are expected from all sections of the country. According to the preliminary program the conference will discuss Federal legislation to give the Government control of natural resources and a proposed taxation system by which a high tax on unused lands would be used to pay the cost of the war.

A statement issued by the promoters of the conference says:

"The Committee on the High Cost of Living estimates that the aggregate unearned profits of land speculators, owners of natural resources, and natural monopolies—railroads, telegraphs, telephones and public utilities—is approximately $5,500,000,000 a year, while the producers have to pay over $2,500,000,000 in taxes, because land owners are permitted to keep $3,500,000,000 of unearned ground rents. The total cost to the workers of our country cost to the workers of the country is therefore, this year, nearly $8,000,000,000—a per capita charge of almost $80.

For sale—two horses and two delivery wagons. Big bargain. Apply at once. Brady Bros.

M. L. Martin and S. E. Abner of Des Moines, Iowa, are spending a few days in the city on business.

ANXIETY OVER SHIPPING ADVANCES GRAIN VALUES

Corn Finishes Strong ¾ to 3⅞ Cents Net Higher—Wheat Closes Unsettled 3 to 8 Cents Up

Chicago, July 28.—Anxiety over shipping complications due to the switchmen's strike did a good deal today to cause an all around advance in values of grain and provisions. Corn finished strong ¾ to 3⅞c net higher, with September at $1.63¾ and December $1.19⅝ to $1.19¾. Wheat closed unsettled 3 to 8c up at $2.60 July and $2.29 September. Oats showed a jump of 1¾c to 1⅝c and provisions 10 to 27c.

Disturbing effects of the strike manifested themselves especially in the corn trade where shorts made a general rush to cover and speculative buying was active. In addition to the strike, continued drouth damage reports tended tolift prices. Complaints that injury had been rendered worse by extreme heat referred to a broad stretch that included much of Texas, Oklahoma, Kansas and Nebraska. Notwithstanding that the hot weather was conceded to be of great benefit to the corn crop in the central belt demand from eleventh hour bulls and from uneasy shorts could not be satisfied until the market had soared about four cents. Realizing of profits by holders became somewhat free at the top of the bulge. In the absence however of any sign of immediate relief from either the strike or the drouth, no important setback in prices took place. Unfavorable crop news from North Dakota and Western Canada increased bullish sentiment regarding wheat.

The chief other bullish factor aside from the indirect influence of the strike was the prospect of final agreement on the terms of the food control bill with a provision for a generous minimum fixed price to be paid for wheat at primary centers.

Despite the outlook for a huge crop outlook the oats market rose with corn. The strike of switchmen here gave reason for serious apprehension that the movement of the crop might be delayed.

Strike difficulties curtailing the arrival of hogs led to a decided upturn in provisions. Belgian relief purchases counted also as an element of strength.

OMAHA LIVESTOCK MARKET
Omaha, July 27.—Hogs—Receipts 9,200; steady to strong; heavy $14.35@$15.35; mixed $14.50@$15.60; light $14.60@$15.60; pigs $12.60@$14.75; bulk of sales $14.50@$14.90.

DISCOVER SUPPOSED RUBENS PAINTING
Stockholm, July — A picture of "Christ and His Disciples at Emmaus," discovered in a little antiquities shop in Malmo, is said by some Swedish art critics who have examined it to be a work of Rubens. Even if the picture be not by Rubens they declare, it was certainly painted in his atelier and under his supervision. The picture is, in general grouping, like Ruben's large Emmaus picture in the Prado Museum of Madrid. The face of John bears a strong resemblance to Ruben's second wife, who posed for figures in so many of his works.

LOST and FOUND

FOUND—Three carpet sweepers in machine shed. Owner can have same by paying for adv. F. Zorn, Chandlerville. 7-27-3t.

SHORT COVERING PARAMOUNT INFLUENCE

Advances Largely Surrendered in the Final Hour, the Market Closing However with a Firm Note.

New York, July 28.—Short covering was again the paramount influence in today's light operations, the oversold condition of the list being seen in the 1 to 2 point gains recorded by leading stocks, notably war issues.

Advances were largely surrendered in the profit-taking of the final hour, the market closing, however, with a firm tone. Shippings, motors, leathers and secondary specialties shared in the temporary rise bue rails were ignored thruout the only feature in that division being St. Paul which retained half of its two point gain.

United States Steel at one time showed a one point rise at 123⅞, but forfeited virtually all its advantage other industrials and equipments reacting similarly. ndustrial Alcohol was 4⅝ points at its top on active trading but yielding in part.

Metals and shippings were inconscicuous except for Atlantic, Gulf and West ndies, which rose almost 2 points on its May statement of earnings, but soon fell back. Total sales amounted to 225,000 shares.

The bank statement reported an actual loss of almost $50,000,000 in reserves of members held by the federal reserve bank and a decrease of slightly more than $37,000,000 in excess reserves, still leaving the total excess well more than $100,000,000.

Bonds were irregular on very limited offerings the liberty issue being quoted at 99.28 to 99.40 with occasional sales as lo was 99.35. Total sales (par value) aggregated $1,270,000.

United States bonds (old issues) were unchanged on call during the week.

MANY WILL CAMP DURING CHAUTAUQUA

Sec. A. C. Rice is Busy These Days Meeting Demands for Tents and Tickets—Fine List of Attractions.

Secretary Rice of the Chautauqua is a busy man these days. With the arrangements for the big assembly in his hands and the sale of tickets, tents and distribution of advertising matter he has his hands full.

The sale of subscribers' tickets is very good and more gratifying is the general feeling among patrons that the program is the best ever presented. The advance sale of tickets and tents plainly indicates the success of the assembly and proves to its management that a high-grade Chautauqua can be made permanent.

The time of the assembly is fixed largely for the convenience of the residents of the rural districts. It comes just after the farmers' busy season and at the only time when he and his family can enjoy a little vacation, and the farmers of our community have not been slow to avail themselves of the opportunity to enjoy a few days recreation at our excellent assembly. In years gone by the people in the countryside who could afford a vacation went to other chautauquas or took an excursion trip. The attendance from Jacksonville is increasing each year.

The attractions offered appeal to them more and more each year and now many who leave town for a time in midsummer are planning their vacation so as to be home during the assembly. Altogether it affords the people of the town and country occasion to extend their friendships, get better acquainted with each other and at the same time enjoy a season of wholesome recreation and pleasure. Among those who have already reserved places for family tents are:

The Red Cross.
The G. A. R. and W. R. C.
The Y. M. C. A.
Mrs. J. A. McKean.
The W. C. T. U.
Worthington & Heinl.

GREGORY FARM LABORATORY PRODUCTS
TESTED ON OUR OWN STOCK FIRST

Have Your Hogs Vaccinated by a Concern that Guarantees Results

You can now absolutely insure your hog profits. We will vaccinate your hogs and pay cash for any you lose from cholera in the six months following treatment, in excess of a certain small percentage.

The charge for treatment and insurance is only 2½c. per c. c. plus traveling expenses of our representative from White Hall to your place and return.

If a couple of your neighbors can vaccinate at same time, the share of traveling expense that each will have to pay will be very small.

Write now for sample contract. Mention this paper.

SUNDAY SCHOOL WORK DESCRIBED IN OUTLINE

State Association Has Important Function in Gathering Statistics and Spreading Information — County Convention Plans.

Plans for the county Sunday school convention are well under way and this gathering which will be held at Concord August 28-29, promises to be one of the most successful events of its kind in recent years. W. H. Crum of Literberry is president of the Morgan county Sunday School association and he, together with all the officers, desire that every Sunday school workers avail himself of the opportunity for information and instruction offered at this time.

Under the county associations of the state are the precinct associations, of which in Morgan county there are thirteen. One of the functions of the state association work is the gathering of statistics and it is largely from this work that Sunday school figures in possession of the U. S. government are made up. It is desired that every school in the county send regular reports to the secretary, Miss Flora J. Hall, Jacksonville, for in no other way can adequate statistics be assembled. It is urged, therefore, that all Sunday schools of Morgan county send reports promptly that the strength of Sunday school work in the county as well as in Illinois, be thoroly known.

The genius of Sunday school association work is to unite the local Sunday school workers of each community in a co-operative effort to extend and improve the work of the Sunday school, and to unite these communities in a state wide, continent wide and world wide co-operative effort to dictate or to be an authorative body, but thru the co-operation of workers endeavors to promote the best things for the interest of the Sunday school and Sunday school workers.

Association Work may be outlined as follows:

1. The Worlds Sunday school association, with headquarters in New York City, for the missionary department of the Association work, designed to extend Sunday school activities according to the present day standards and ideals to every country in the world.

2. The International Sunday school association with headquarters in Chicago which aims to promote the best interest for the Sunday school and its workers in North America. This is done thru conventions, such as, the International, The State, The County and the Township Sunday School Conventions. It is impossible for the International Association thru its corps of splendid workers to reach these smaller units, so auxiliary associations are organized for the purpose of bringing the influence of the Sunday school association work to the remotest school in the land.

These auxiliary associations are the State Sunday school associations of which Dr. Charles E. Schenck is general secretary in the state of Illinois.

HAS GOOD POSITION

Carl J. Tonn, who has been employed in the local Western Union office is now manager of the office of the company at the aviation field at Rantoul. Mr. Tonn is only another of the many boys trained by Manager Joe Pine who have gone to higher positions.

Silk Skirts	$5.00 to $15
Waists	$1.00 to $7.50

N. B.—See those charming new Purses and Belts.

AJAX TIRES

GUARANTEED IN WRITING 5000 MILES

Your Next Tire

THERE *is* a new and better tire service. You do not know what it means if you have never equipped with Ajax. It is not alone that every Ajax Tire is guaranteed in writing 5000 miles—this minimum service registered individually to you by Ajax makers—but there is a higher in-built quality of service as well as quantity. Better riding quality, protection for your car, fuel economy.

Not more than 3% of the total Ajax output goes for manufacturer's standard equipment. This means Ajax Tires are bought by individual motorists through choice—to *replace* other makes of tires—because Ajax tires are *better.*

And Ajax Tires are more economical, too. They carry a guarantee 5000 miles. The anticipated life of other standard makes is 3500 miles. That's 43% in Ajax favor—a saving opportunity of $3 to $15 per tire. Come in and let's talk about Ajax—your next tire.

Illinois Tire and Vulcanizing Co.

The New Chevrolet "1918"

The Most Popular Car Made

Be sure and see the 490 and Baby Grand before you purchase. With the wonderful improvements they would lead the world.

Besides the full electric equipment found on last year's 490, we have added:
